Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of Section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

DIRECTOR'S REPORT

Dear Shareholders

Assalam-o-Alaikum Wa RehmatUllah Wa Barakatoh

The directors of your Company (Ghani Global Glass Limited) are pleased to present the audited financial statements of the Company for the year ended June 30, 2018, in compliance with the requirements of Companies Act, 2017.

OVERVIEW OF THE NATIONAL ECONOMY

Pakistan's economy received multiple jolts during fiscal year 2018 and almost all economic indicators worsened. The economy is faced with new and bigger challenges in fiscal year 2019. The economy took off with Gross Domestic Product (GDP) being declared at a decade high level of 5.3% in fiscal 2017. It achieved a 13-year high growth of around 5.7-5.8% in FY18. However, now it is estimated to recede to 4.7-4.8% in FY19. Economic fundamentals have deteriorated over the previous year and are set to mess up the economy down the road. The water crisis may further hamper economic growth in fiscal year 2019. As per international organizations, Pakistan is likely to face a major water crisis by 2025. The crisis may slow down agriculture growth this fiscal year. Its share in the economy stands at around one-fifth. Given the bleak economic scenario, where the country's foreign currency reserves have dropped. The government has set a GDP growth target of 6% for fiscal year 2019. However, estimated economic growth at 4.8% in fiscal year 2018-19". Poor performance on the economic front also suggests that Pakistan may face a crisis in fiscal year 2019 if corrective measures are not taken on time. Pakistan has been facing the problem of a current account deficit since last year and in 2018-19 it faces a balance of payments crisis as well as currency weakening ...

REASON FOR LOSS

This was the second full year's operations of the company closed for the year ended June 30, 2018. Currently company is in losses because the Company has established in Pakistan, for the first time, a premium European Tubing Glass Manufacturing Plant, which is second to none. Our competition is with the low priced low quality glass tube being imported from China. Our glass tube being of European quality costs more as compared to low priced low quality Chinese glass tube which is not meeting the international pharmacopeia standards. We have to sale high quality costly product at below cost in order to penetrate in the local market and to increase our market share. Further we have installed machinery for the manufacturing of value added products i.e. Ampoules and Vials which were under-utilized due the initial stages of operations of the said machines causing high cost of manufacturing, which we expect to be in full operational in coming days causing the cost of manufacturing on lower side and bring the company in breakeven and afterwards in profits In-Sha-Allah. Being the industry power intensive based there was also increase in fuel and power cost of the company due to increase in prices of natural gas etc. During the year there was also depreciation of Pak Rupee against the foreign currency caused the booking of foreign currency translation loss. Our management and team is working day and night with their entire honest efforts to bring the company in profitability on earliest basis In-Sha-Allah.

OPERATIONS, DEVELOPMENT AND PERFORMANCE

The overall operations and performance of the Borosilicate glass tube furnace and allied equipments was found to be excellent. The furnace operation was smooth and overall production yield of raw material of 62% has shown improvement of 13% over the last year. The overall tube production has registered a growth of 10% over FY-17. The Borosilicate tube is unique product which was introduced in Pakistan for the first time. The product has not only met the needs and expectation of the customers but played a key role in the country's economy by drastic reduction in low quality imports of the tubes.

While looking at the needs of the healthcare customer sector and to ease load on foreign exchange spent for import of ampoules, the management invested in the state of the art computerized OCMI ampoule making machines and doubled the production capacity which resulted into producing handsome quantity of ampoules giving around 5 times boost to the production.

Issues experienced by your Company during the year were because of the Natural Gas Pressure fluctuation and stoppage at number of occasions. Wapda power outages was also one of the major issues which were addressed through the in-house diesel operated generator.

To have better and quality production the company is making heavy investment in the Oxy-fuel burning system at the furnace. This system will not only improve the gas burning capabilities but will reduce the natural gas consumption. Improvement in furnace performance and reduction in natural gas consumption will have a direct positive impact on the profitability of the company.

While achieving the best results and capturing major portion of the market the management has planned to import and install additional ampoule making machines manufactured by OCMI, Italy. This will give a 100% boost to the ampoules production from OCMI machines.

SALES AND MARKETING

Sales & Marketing operations extended in comparison to last year and number of new customers added in our portfolio across Pakistan. This year sales increased by around 50%. We are currently selling around 20-22M ampoules per month. Our tube sale is gradually coming down due to our more penetration in the market for value added products.

We also penetrated in other markets like Islamabad and KPK region. For this purpose, hired an experienced person to visit the company's in this region and expanding our business.

Our products are approved in most of the middle and large National Companies where we are working closely with these companies and getting a sizeable business in spite of numerous converters in market. We are working with multinational companies also. Currently they are using ampoules from Schott Germany tubing. We are actively working with them and pursuing them to switch on our tubing. This require some Quality Protocol to complete and audit from their Technical team to our plant. Once this process is finalized, we will start business with couple of MNCs by end of this year.

Orders from current customers are based on their monthly planning. These companies do not issue long time orders due to uncertain market and economic conditions.

HOW LOOKING 2019?

Our Sales portfolio is growing slow and steady as Pharma Companies are suffering a lot of business due to incomplete legislation of Drugs Act under devolution of departments to provinces under 18th amendments. Further, these issues are couple with uncertain situation of market and economic conditions of the country. Devaluation of Pakistani Currency against USD.

We hope with the inception of new Government in place, economic conditions will become better and it will gain the confidence of business community.

We also working to export our product in South East Asia and African countries. Our tube samples approved by a converter in Bangladesh and being process to strengthen our business.

We assessed the disclosures against the requirements of IAS 18 Revenue.

4. Preparation of financial statements under the Companies Act, 2017

As referred to note no. 3.2 to the financial statements, the Companies Act 2017 (the Act) become applicable for the first time for the preparation of the Company's annual financial statements for the year ended June 30, 2018

The Act forms an integral part of the statutory financial reporting framework as applicable to the Company and amongst others, prescribes the nature and content of disclosures in relation to various elements of the financial statements.

In the case of the Company, specific additional disclosure and changes to the existing disclosures have been included in the financial statements as referred to the note 3.2 to the accompanying financial statements.

The aforementioned changes and enhancements in the financial statements are considered important and a key audit matter because of the volume and significance of the changes in the financial statements resulting from the transition to the new reporting requirements under the Act.

We assessed the procedures applied by the management for identification of the changes required in the financial statements due to the application of the Act.

We considered adequacy and appropriateness of the additional disclosures and changes to the previous disclosures based on the new requirements.

We also evaluated the sources of the information used by the management for the preparation of the above referred disclosures and the internal consistency of such disclosures with other elements of the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have compiled with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Imran Bashir.

3 BASIS OF PREPARATION

3.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017 and provisions of and directives issued under the Companies Act, 2017. Where provision of and directives issued under the Companies Act, 2017 differ from the IFRS, the provision of and directives issued under the Companies Act, 2017 have been followed.

3.2 NEW COMPANIES ACT, 2017, INITIAL APPLICATION OF STANDARDS, AMENDMENTS OR INTERPRETATIONS TO EXISTING STANDARDS

The Companies Act, 2017 (the Act) has also brought certain changes with regard to preparation and presentation of annual and interim financial statements of the company. Further, the disclosure requirements contained in the Fourth Schedule to the Act have been revised, resulting in the:

- elimination of duplicative disclosures with the IFRS disclosure requirements; and
- incorporation of significant additional disclosures

3.3 New standards, amendments to approved accounting standards and interpretations

Initial application of standards, amendments or an interpretation to existing standards

a) Standards, interpretations and amendments to published approved accounting standards that are effective in current year.

The following amendment to published standards is mandatory for the financial year which began on July 1, 2017 and is relevant to the Company.

- Amendment to IAS 7 'Statement of cash flows': This amendment requires disclosure to explain changes in liabilities for which cash flows have been, or will be classified as financing activities in the statement of cash flows. The amendment only covers balance sheet items for which cash flows are classified as financing activities. In case other items are included within the reconciliation, the changes in liabilities arising from financing activities will be identified separately. A reconciliation of the opening to closing balance is not specifically required and the information can be provided in other ways. In the first year of adoption, comparative information is not required to be provided. The amendment does not require any additional disclosure as the reconciliation made in note 21.1 to these financial statements fulfills the requirement.
- Amendment to IAS 12, 'Income taxes' on Recognition of deferred tax assets for unrealised losses. These amendments on the recognition of deferred tax assets for unrealised losses clarify how to account for deferred tax assets related to debt instruments measured at fair value. Currently, there are no debt instruments measured at fair value.
- IFRS 12, 'Disclosure of interest in other entities'. These amendments clarify the scope of IFRS 12 by specifying that the disclosure requirements, except for those summarised financial information for subsidiaries, joint ventures and associates, apply to an entity's interests which are classified as held for sale, as held for distribution to owners in their capacity as owners or as a discontinued operations in accordance with IFRS 5. The amendments does not impact the Company's financial statements.

The other amendments to published standards and interpretations that are mandatory for the financial year which began on July 1, 2017 are considered not to be relevant or to have any significant impact on the Company's financial reporting and operations and are therefore not disclosed in these financial statements.

b) New accounting standards, amendments and IFRIC interpretations that are not yet effective.

The following standards, amendments and interpretations of approved accounting standards that will be effective for the periods beginning on or after January 1, 2018, that may have an impact on the financial statements of the company.

- IFRS 9 'Financial instruments' (effective for annual periods beginning on or after January 1, 2018). This standard has been notified by the Securities and Exchange Commission of Pakistan ('SECP') to be effective for annual periods beginning on or after July 1, 2018. IFRS 9 addresses the classification, measurement and recognition of financial assets and financial liabilities and replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through OCI and fair value through profit and loss. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit and loss with the irrevocable option at inception to present changes in fair value in OCI and not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. For financial liabilities there are no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit and loss.
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after January 1, 2018). This standard has been notified by the SECP to be effective for annual periods beginning on or after July 1, 2018. IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty Programmes'. The Company is currently in the process of analyzing the

potential impact of changes required in revenue recognition policies on adoption of the standard. Management is in the process of assessing the impact of adoption of this standard on the financial statements. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service.

- IFRS 16 'Leases' (effective for annual periods beginning on or after January 1, 2019). This standard is also yet to be notified by the SECP. This standard replaces the current guidance in IAS 17 and is a far reaching change in accounting by lessees, in particular. Under IAS 17, lessees were required to make a distinction between a finance lease (on balance sheet) and an operating lease (off balance sheet). IFRS 16 now requires lessees to recognise a lease liability reflecting future lease payments and a 'right-of-use asset' for virtually all lease contracts. The IASB has included an optional exemption for certain short-term leases and leases of low-value assets. However, this exemption can only be applied by lessees. For lessors, the accounting stays almost the same. However, as the IASB has updated the guidance on the definition of a lease (as well as the guidance on the combination and separation of contracts), lessors will also be affected by the new standard. At the very least, the new accounting model for lessees is expected to impact negotiations between lessors and lessees. Under IFRS 16, a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company is yet to assess the full impact of this standard.
- IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after January 1, 2018) clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration.
- Amendments to IFRS 2 clarify the accounting for certain types of arrangements and are effective for annual periods beginning on or after January 1, 2018. The amendments cover three accounting areas (a) measurement of cash-settled share-based payments; (b) classification of share-based payments settled net of tax withholdings; and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards.
- Transfers of Investment Property (Amendments to IAS 40 'Investment Property' - effective for annual periods beginning on or after January 1, 2018) clarifies that an entity shall transfer a property to, or from, investment property when, and only when there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. In isolation, a change in management's intentions for the use of a property does not provide evidence of a change in use.
- Amendments to IAS 28 'Investments in Associates and Joint Ventures' (effective for annual periods beginning on or after 1 January 2018) clarifies that a venture capital organization and other similar entities may elect to measure investments in associates and joint ventures at fair value through profit or loss, for each associate or joint venture separately at the time of initial recognition of investment. Furthermore, similar election is available to non-investment entity that has an interest in an associate or joint venture that is an investment entity, when applying the equity method, to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture.
- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after January 1, 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax.

- Amendments to IAS 23 Borrowing Costs (effective for annual periods beginning on or after January 1, 2019) clarify that the general borrowings pool used to calculate eligible borrowing costs exclude only borrowings that specifically finance qualifying assets that are still under development or construction. Borrowings that were intended to specifically finance qualifying assets that are now ready for their intended use or sale – or any non – qualifying assets – are included in that general pool. This amendment will be applied prospectively to borrowing costs incurred on or after the date an entity adopts the amendments.
- IAS 12 Income taxes (effective for annual periods beginning on or after January 1, 2019) - the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognised consistently with the transactions that generated the distributable profits – i.e. in profit or loss, other comprehensive income or equity.

The above new standards, amendments and interpretations are not likely to have an impact on Company's financial statements. There are number of other standards, amendments and interpretations to the approved accounting standards that are not yet effective and are also not relevant to the Company and therefore, have not been presented here.

5 BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention except for certain financial instruments, which are carried at fair values.

5.1 Significant accounting judgments and critical accounting estimates / assumptions

The preparation of financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgments were exercised in application of accounting policies are as follows:

a) Income taxes

The Company takes into account the current income tax law and the decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment and appellate stages and where the Company considers that its views on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

b) Useful lives, patterns of economic benefits and impairments

Management has made estimates of residual values, useful lives and recoverable amounts of certain items of property, plant and equipment. Any change in these estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment loss.

c) Provision for doubtful debts

The Company reviews its doubtful trade debts and other receivables at each reporting date to assess whether provision should be recorded in the profit and loss account. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provisions.

d) Provision for slow moving / obsolete items

The Company reviews the carrying values and impairment of stores, spares and loose tools to assess any diminution in the respective carrying values and wherever required provision for NRV / impairment is made. The calculation of the provision involves the use of estimates with regard to future estimated use and respective fair value of stores, spares and loose tools.

5.2 Functional and presentation currency

These financial statements are presented in Pak rupee, which is the functional and presentation currency for the Company.

6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are set-out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

6.1 Property, plant and equipment

These are stated at cost less accumulated depreciation and impairment, if any, except freehold land which is stated at cost. Cost of operating fixed assets comprises historical cost, borrowing cost and other expenditure pertaining to the acquisition, construction, erection and installation of these assets.

Residual value and the useful life of assets are reviewed at each financial year end and if expectations differ from previous estimates the change is accounted for as change in accounting estimate in accordance with IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Normal repairs and maintenance costs are charged to profit and loss account as and when incurred.

Depreciation

Depreciation is charged to profit and loss account using the reducing balance method, except for plant and machinery on which depreciation is charged on production hour basis and furnace on which depreciation is charged on straight line basis, so as to write off the cost over the expected useful life of assets at rates, which are disclosed in notes to the financial statements. Depreciation on additions to property, plant and equipment is charged from the month in which the asset is acquired or capitalized, while no depreciation is charged for the month in which the asset is disposed off.

De-recognition

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amounts. Where the carrying value exceeds the recoverable amount, assets are written down to the recoverable amount and the difference is charged to the profit and loss account.

6.2 Taxation

Current

The charge for current tax also includes adjustments, where considered necessary, to provision for taxation made in previous years arising from orders under Income Tax Ordinance, 2001 passed during the year or any previous year(s).

Deferred

Deferred tax is recognized using balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using the enacted or substantively enacted rates of taxation. In this regard, the effects on deferred taxation of the portion of income expected to be subject to final tax regime is adjusted in accordance with the requirements of Accounting Technical Release – 27 of the Institute of Chartered Accountants of Pakistan.

The Company recognizes a deferred tax asset to the extent that it is probable that taxable profits for the foreseeable future will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax relating to items recognized outside profit and loss account is recognized outside profit and loss account. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

6.3 Trade and other payables

Where outflow of resources embodying economic benefits is not probable, or where reliable estimate of the amount of obligation cannot be made. A contingent liability is disclosed, unless the possibility of outflow is remote.

40 RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

40.1 Fair value hierarchy

Judgments and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

Recurring fair value measurements

Financial assets

Financial assets at fair value through profit and loss account

2018			
Level 1	Level 2	Level 3	Total
(Rupees)

Financial assets at fair value through profit and loss account

2017			
Level 1	Level 2	Level 3	Total
(Rupees)			
Nil	Nil	Nil	Nil

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity - specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

As at reporting date, the Company has no item to report in these levels.

42 FINANCIAL RISK MANAGEMENT

42.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Board of Directors (the Board) and Chief Financial Officer (CFO). The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, equity price risk, interest rate risk, credit risk and liquidity risk.

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Company is exposed to currency risk arising from various currency exposures, primarily with respect to the EURO and United States Dollar (USD). As on reporting date, the Company's foreign exchange risk exposure is restricted to the loans and advances and amounts payable to foreign entities. The Company's exposure to currency risk was as follows:

Following is the gross balance sheet exposure classified into separate foreign currencies:

	2018 (USD)	2017	2018 (EURO)	2017
Loans and advances	-	364	-	-
Trade and other payables	19,600	-	479,020	360,626
Gross balance sheet exposure	19,600	364	479,020	360,626

The following significant exchange rates were applied during the year:

	Average rate June 30, 2018 (Rupees)	June 30, 2017	Spot rate June 30, 2018 (Rupees)	June 30, 2017
PKR per				
EURO	132.02	114.22	141.57	119.63
USD	110.63	104.81	121.60	104.85

Sensitivity analysis

If the functional currency, at reporting date, had weakened / strengthened by 5% against the USD and Euro with all other variables held constant, the impact on profit after taxation for the year would have been Rupees 0.119 million higher / lower (2017: Rupees 0.002 million higher / lower) and Rupees 3.391 million higher / lower (2017: Rupees 2.157 million higher / lower) respectively, mainly as a result of exchange gains / losses on translation of foreign exchange denominated financial instruments. Currency risk sensitivity to foreign exchange movements has been calculated on a symmetric basis. In management's opinion, the sensitivity analysis is unrepresentative of inherent currency risk as the year end exposure does not reflect the exposure during the year.

(ii) Profit rate risk

The Company has no significant long-term profit-bearing assets. The Company's profit rate risk arises from long term liabilities. Borrowings obtained at variable rates expose the Company to cash flow profit rate risk. Borrowings obtained at fixed rate expose the Company to fair value profit rate risk.

At the balance sheet date the profit rate profile of the Company's profit bearing financial instruments was:

	2018	2017
	(Rupees)	
Floating rate instruments		
Financial assets		
Cash at bank - deposit accounts	46,411,400	61,921,710
Financial liabilities		
Long term financing	376,240,893	529,113,951
Short term borrowings	544,077,547	364,231,460

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in profit rate at the balance sheet date would not affect profit or loss of the Company.

Cash flow sensitivity analysis for variable rate instruments

The following analysis demonstrates the sensitivity to a reasonably possible change in profit rates, with all other variables held constant, of the company's profit before tax. This analysis is prepared assuming the amounts of floating rate instruments outstanding at balance sheet dates were outstanding for the whole year.

		Changes in Interest Rate (%)	Effects on Profit Before Tax (Rupees)

	2017	+2.00	7,284,629

(ii) Other price risk

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company does not have financial assets and liabilities whose fair value or future cash flows will fluctuate because of changes in market prices.

(b) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. To manage credit risk the Company maintains procedures covering the application for credit approvals, granting and renewal of counterparty limits and monitoring of exposures against these limits. As part of these processes the financial viability of all counterparties is regularly monitored and assessed.

The Company is exposed to credit risk from its operating activities primarily for sundry receivables and other financial assets.

The Company's credit risk exposures are categorized under the following headings:

Counterparties

The Company conducts transactions with the following major types of counterparties:

Trade debts

Trade debts shall be essentially due from local customers against sale of glass products. Sales to the Company's customers shall be made on specific terms and conditions. Customer credit risk shall be managed by each business unit subject to the Company's established policy, procedures and controls relating to customer credit risk management. Credit limits are being established for all customers based on internal rating criteria. Credit quality of the customer is also being assessed based on an extensive credit rating. Outstanding customer receivables shall be regularly monitored.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Note	2018 (Rupees)	2017
Long term deposits	9	7,797,691	6,767,650
Trade debts	12	138,623,102	76,134,308
Trade deposits	14	2,348,208	2,640,942

Bank balances	18	71,818,104	67,312,847
		220,668,227	152,959,236

Provision for trade debts

Based on age analysis, relationship with customers and past experience no provision for doubtful debts is required for the year ended June 30, 2018 and does not expect any party to fail to meet their obligation.

Cash at banks

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counter party default rate. The table below shows the bank balances held with some major counter parties at the balance sheet date:

Due to the Company's long standing business relationships with these counter parties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly the credit risk is minimal.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Management believes the liquidity risk to be low.

The table below analyses the Company's financial liabilities into relevant maturity grouping based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

42.4 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide return for shareholders and benefits for other stakeholders and to maintain healthier capital ratios in order to support its business and maximize shareholders value. The Company manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payments to the shareholders, return on capital to shareholders or issue new shares.

No changes were made in the objectives, policies or processes from the previous year. The Company monitors capital using gearing ratio, which is debt divided by equity plus net debt. کمپنی سبز ماحول کے لئے پرعزم ہے۔ جسکے لئے پلانٹ کے ارد گرد درخت لگاؤ پروگرام شروع کیا گیا ہے۔ فارماسیوٹیکل کمپنیز کو صاف ستھرے ایپیولز فراہم کرنے کے لئے صاف ستھرہ ماحول HVAC سسٹم نصب کیا گیا ہے۔

نقصان کی وجہ

یہ کمپنی 306 جون 2018 کو ختم ہونے والا آپریشن کا دوسرا مکمل سال ہے۔ کمپنی اس وقت نقصان میں اسلپے ہے کہ کمپنی نے پاکستان میں پہلی مرتبہ اعلیٰ یورپین معیار کا گلاس ٹیوبنگ مینوفیکچرنگ پلانٹ لگایا ہے جس کا کوئی عمل بدل نہیں۔ ہمارے مقابلہ چائنہ سے درآمد شدہ غیر معیاری اور کم قیمت گلاس ٹیوب سے ہے۔ یورپین معیار کے سبب ہماری گلاس ٹیوب زیادہ لاگت کی ہے نسبت غیر معیاری چائنیز ٹیوب کے جو بین الاقوامی فارما کو پیاسٹینڈرڈ کے مطابق نہیں ہے۔ لوکل مارکیٹ میں انٹری اور مارکیٹ میں حصہ بڑھانے کے لئے ہمیں اپنی اعلیٰ معیار کی مہنگی پروڈکٹ لاگت سے کم قیمت پر فروخت کرنی پڑتی ہے۔ اس کے علاوہ کمپنی نے اپنی ویلیو ایڈڈ ایسیپول اور وائیل پروڈکٹ بنانے کے لئے مشینری لگائی ہے جو شروعات کی وجہ سے زیادہ لاگت میں ہے اور وقت گزرنے کے ساتھ اسکی پروڈکشن بڑھے گی تو امید ہے جلد ہی ہم بریک ایون (آمدن اور خرچ برابر) اور اس کے بعد منافع تک پہنچ جائیں گے انشاء اللہ۔ نیچرل گیس میں اضافہ کی بدولت کمپنی کو پاور کاسٹ بھی بڑھی۔ اس سال کے دوران روپے کی قدر میں کمی کی بدولت غیر ملکی کرنسی میں لین دین میں بھی نقصان ہوا۔ آپ کی کمپنی کی منجینیٹ اور ٹیم نہایت ایمانداری سے دن رات کوشش میں ہے کہ کمپنی کو جلد از جلد منافع میں لایا جائے۔ انشاء اللہ

آپریشن ڈویلپمنٹ اور پرفارمنس

مجموعی طور پر آپریشن اور بوروسیلکیٹ گلاس ٹیوب فرنس اور متعلقہ ساز و سامان بہترین رہا۔ فرنس آپریشن اور پروڈکشن کی کارکردگی 62 فیصد سے بڑھ کر 13 فیصد اضافہ ہوا۔ مجموعی طور پر ٹیوب کی پیداوار مالی سال 2017 سے 10 فیصد زیادہ رہی۔ منفرد خصوصیات کی حامل بوروسیلکیٹ ٹیوب پاکستان میں پہلی مرتبہ متعارف کرائی گئی۔ اس پروڈکٹ نے نہ صرف کسٹمر کی ضروریات اور توقعات کو پورا کیا بلکہ اچھوٹے رٹ میں کمی کی بدولت ملکی اکاؤنٹی کے لئے اہم کردار ادا کیا۔

ہیلتھ کیئر کسٹمرز کی ضروریات کے پیش نظر اور ایمپولز کی ایمپورٹ پر زرمبادلہ کی خرچ کی بدولت کمپنی نے کمپیوٹرائزڈ ایمپول بنانے والی OCMI مشینوں پر سرمایہ کاری کر کے پروڈکشن کو دوگنا کر دیا جس کی بدولت پروڈکشن میں پانچ گنا اضافہ ہو گیا۔ نیچرل گیس کے پریشمین کی پیشی کی بدولت کئی مواقع پر پروڈکشن روکنی پڑی۔ واپڈا کی بندش بھی ایک بڑا مسئلہ رہی جیسے ڈیزل جنریشن کے ذریعے قابو کرنے کی کوشش کی گئی۔ بہترین نتائج اور مارکیٹ کے زیادہ سے زیادہ حصے کے حصول کی خاطر منجینیٹ نے مزید ایمپول بنانے والی OCMI مشینیں اٹلی سے ایمپورٹ کرنے کا پلان بنا رہی ہے۔ اس سے OCMI کی ایمپول پروڈکشن میں سو فیصد اضافہ ہو جائے گا۔

سیل اور مارکیٹنگ

پچھلے سال کی نسبت سیل اور مارکیٹنگ کے آپریشن میں اضافہ ہوا اور تمام پاکستان سے متعدد کسٹمرز ہماری لسٹ میں شامل ہوئے۔ اس سال ایمپول کی سیل میں لگ بھگ 50 فیصد اضافہ ہوا۔ ہم تقریباً 22-20 ملین ایمپول بیچ رہے ہیں۔ ویلیو ایڈڈ پروڈکٹ میں اضافہ کی بدولت ہماری ٹیوب کی سیل آہستہ آہستہ کم ہو رہی ہے۔ ہم دوسری مارکیٹوں جیسے اسلام آباد اور خیبر پٹی کے کی طرف بھی داخل ہو رہے ہیں۔ اس مقصد کیلئے ہم نے اس رجن میں سیل اور اپنے کاروبار میں وسعت کی خاطر تجربہ کار لوگ بھرتی کئے ہیں۔

ہماری مصنوعات درمیانی اور بڑی نیشنل کمپنیز میں پاس ہو چکی ہیں۔

جہاں ہم مارکیٹ میں مختلف کنورٹر کی موجودگی کے باوجود ان کمپنیز سے مل کر کام کرتے ہوئے بڑی تعداد میں کاروبار کر رہے ہیں۔ ہم ملٹی نیشنل کمپنیز کے ساتھ بھی کام کر رہے ہیں جو اس وقت سکاٹ جرمنی کی ٹیوبنگ سے ایمپول استعمال کر رہے ہیں۔ ہم ان سے فعال طور پر کام کر رہے ہیں اور ہماری ٹیوب استعمال کرنے کی ترغیب دے رہے ہیں اس کے لئے کوالٹی پروڈکٹ اور ان کمپنیوں کی ٹیکنیکل ٹیموں کا آڈٹ چل رہا ہے۔ ایک مرتبہ یہ پروسس مکمل ہو گیا تو اس سال کے آخر تک ہم ان ملٹی نیشنل کمپنیوں سے کاروبار شروع کر دیں گے۔

موجودہ کسٹمر سے آرڈران کی پلاننگ کے مطابق موصول ہو رہے ہیں۔ یہ کمپنیاں مارکیٹ اور اکنا مک کی غیر یقینی صورتحال کے بدولت لمبی مدت کے آرڈر دینے سے گریزاں ہیں۔

سال 2019 کا نقطہ نظر:

ہماری سیل آہستہ آہستہ اور مستحکم انداز میں بڑھ رہی ہے چونکہ فارما کمپنیز کا کاروبار ڈرگ ایکٹ میں نامکمل قانون سازی آٹھارویں ترمیم کے بعد صوبوں کی منتقلی کی بدولت متاثر ہو رہا ہے۔ مزید برآں ان مسائل اور دوسری مارکیٹ اور ملکی معاشی حالات کی بدولت غیر یقینی صورتحال ہے۔

پاکستانی کرنسی US ڈالر کے مقابلے میں کمزور ہوئی نئی گورنمنٹ کی آمد کے باعث ہم امید کرتے ہیں کہ معاشی حالات بہتر ہوں گے اور اس سے کاروباری برادری کا اعتماد بہتر ہوگا۔ ہم سائنڈ مشرقی ایشیاء اور افریقی ممالک میں ایکسیپورٹ کے لئے کام کر رہے ہیں ہماری پراڈکٹس کے نمونے بنگلادیش میں منظور ہو چکے ہیں جو ہمارے کاروبار کو مضبوط بنانے میں مددگار ہوں گے۔ اس سال ہماری ترجیحات کارکردگی میں بہتری لانے پر مرکوز رہی اور بڑی صنعتوں کے ساتھ بڑے منصوبے قابل ذکر ہیں۔ ہم اپنی سرگرمیوں کے تبادلے پر عمل درآمد کے ساتھ جدت انگیزی اور اس کے ساتھ غنی گیسز کے ماڈل پر عمل پیرا ہیں۔

حصص داران کو ادائیگی:

آپ کی کمپنی کی انتظامیہ شیئر ہولڈرز کو اپنی "سرمایہ کاری پر واپسی" پر مکمل یقین رکھتی ہے۔ بحال کمپنی کے منافع میں آنے کے بعد شیئر ہولڈرز کو ادائیگی کی انشاء اللہ سفارش کی جائیگی۔

ڈائریکٹر رپورٹ

معزز حصص داران

السلام علیکم ورحمۃ اللہ وبرکاتہ

آپ کی کمپنی (غنی گلوبل گلاس لمیٹڈ) کے ڈائریکٹر ان کمپنیز ایکٹ 2017 کی تصریحات کے تحت سالانہ تصدیق شدہ مالی حسابات برائے سال ختمہ 30 جون 2018 پیش کرتے ہوئے خوشی محسوس کرتے ہیں۔

ملکی معیشت پر نظر:

پاکستانی معیشت کو مالی سال 2018 کے دوران بے شمار جھٹکے لگے اور تمام معاشی اعشاریے برے رہے۔ معیشت کو سال 2019 میں اور بڑے مسائل درپیش ہیں۔ اس دہائی میں سال 2017 میں معیشت میں مجموعی پیداوار میں ریکارڈ 5.3 فیصد شرح سے ترقی کی جبکہ سال 2018 میں ملکی معیشت 13 سال بعد مجموعی پیداوار 5.7 فیصد سے 5.8 فیصد رہی۔ جبکہ 2019 کے مالی سال میں ملکی مجموعی پیداوار میں کمی کے ساتھ 4.7 فیصد سے 4.8 فیصد تخمینہ متوقع ہے۔ ملکی معاشی اعشاریے پچھلے سال سے برے نتائج پیش کر رہے ہیں۔ پانی کی کمی کا مسئلہ بھی معاشی ترقی کو مزید دباؤ میں رکھے گا۔ بین الاقوامی تنظیموں کے مطابق پاکستان کو سال 2025 تک پانی کے بڑے بحران کا سامنا ہوگا۔ یہ بحران اس مالی سال میں ذریعہ ترقی میں کمی کا باعث ہوگا۔

زراعت کا شعبہ ملکی ترقی میں 1.5 فیصد کا حامل ہے۔ محدود معاشی صورتحال اور ذرا مبادلہ کے گرتے ہوئے ذخائر کو سامنے رکھتے ہوئے گورنمنٹ نے مالی سال 2019 میں مجموعی معاشی ترقی کے لئے 6 فیصد کا هدف مقرر کیا ہے۔ جبکہ مالی سال 2018-19 میں معاشی ترقی 4.8 فیصد پر متوقع ہے۔ معیشت میں متاثرین ترقی نہ ہونے کی وجہ سے پاکستان کو سال 2018-19 میں مسائل درپیش ہوں گے۔ جب تک بروقت موثر اقدامات نہ کیے گئے۔ پاکستان کو روپے کی گرتی ہوئی قدر کے ساتھ ساتھ جاری کھاتے میں بھی کمی کا سامنا ہے جو آئندہ سال 2018-19 میں بھی متوقع ہے۔

اصولی کاروباری سرگرمیاں:
