## International Steels Limited Directors' Report

As at 31 March 2019

The Directors of your company are pleased to present the condensed interim financial statements for the nine month period ended 31st March 2019.

Economic growth is set to decelerate this fiscal year as the country grapples with a large current account deficit, fragile government finances and limited international reserves. Austerity measures to alleviate these problems, coupled with waning investor confidence, are likely to restrain growth. Tightening of Monetary Policy, exchange rate adjustments, reduction in PSDP spending and regulatory measures have impacted domestic economic activity. Macroeconomic challenges in the form of rising inflationary pressures, elevated levels of twin deficits and low foreign exchange reserves have resulted in an increase of policy rate by 50 bps in March 2019 taking the policy rate to 10.75%. In spite of these challenges, your company managed to increase its market share.

Steel prices have shown increased volatility on supply concerns about iron ore. This has resulted in an increase in prices in the short run. However imports from China and Russia continued to increase at significantly lower prices putting pressure on domestic prices. The anti-dumping duties on Company's products could not be enforced due to legal challenges in various High Courts.

In spite of the domestic economic challenges, steel prices decline and import at lower prices, your Company's sales during the nine month period ended 31 March 2019 recorded a growth of 16% at Rs. 40.5 billion as compared to Rs. 34.8 billion for the same period last year. The gross margin remained under pressure due to fluctuations in exchange rate and volatility in international steel prices. The finance cost for the quarter increased mainly due to hike in interest rates. These challenges had an impact on margins and profitability of the Company and profit after tax for the nine months period and earnings per share stood at Rs. 2,360 million and Rs. 5.42 per share compared to Rs. 3,234 million and Rs. 7.43 per share for the same period last year.

The Company expanded cold rolled capacity has continued to operate satisfactorily, enabling the Company to meet the demand in both local and international markets as well help the economy in terms of import substitution. The finishing capacity for cold rolled products will be further enhanced with the commissioning of additional annealing furnaces in Q4 2018-19.

### Future Outlook

The domestic manufacturers face tough competition from imported products, particularly from China, Russia and Ukraine. Local manufacturing needs government protection in the form of antidumping duties on imports. ISL has a strong market share and can compete in markets where quality steel is needed. CPEC is a huge demand driver not just in construction industry but in the automotive and other manufacturing industries. Meanwhile, as industries grow and expand, the demand for flat products will grow as well. Having achieved expanded capacity of 1 million tons, the Company is continuously striving to increase its market share by further improving its operational efficiencies, optimizing utilization of its available resources and servicing potential market opportunities. Keeping in view the foregoing, the Company is positive about future prospects and expects to perform well in the ensuing years.

On behalf of Directors, we would like to extend our gratitude to all our stakeholders for their continued support. We also thank management and staff for their commitment, hard work and pray to Almighty Allah for the continued success of your Company.

Dated: 16 April 2019  
Karachi.

For & behalf of  
International Steels Limited

Kemal Shoaib  
Chairman

## **International Steels Limited**

### **Notes to the Condensed Interim Financial Statements (Un-audited)**

*For the nine months period ended 31 March 2019*

#### **1. STATUS AND NATURE OF BUSINESS**

International Steels Limited ('the Company') was incorporated on 03 September 2007 as a public unlisted company limited by shares under the repealed Companies Ordinance, 1984 and is domiciled in the province of Sindh. The Company was listed on the Pakistan Stock Exchange Limited on 01 June 2011. The Company is subsidiary of International Industries Limited (Holding Company) which holds 245,055,543 (30 June 2018: 245,055,543 shares) shares of the Company as at 31 March 2019 representing 56.3% (30 June 2018: 56.3%) of the shareholding of the Company.

The net assets of the Steel Project Undertaking of International Industries Limited (the Holding Company), amounting to Rs. 4,177.167 million determined as at 23 August 2010 (day immediately preceding the completion date) in accordance with the Scheme of Arrangement, were transferred to the Company on 24 August 2010. In consideration of transferring to and vesting the Steel Project Undertaking in the Company, 417,716,700 fully paid-up ordinary shares were issued at par value to the Holding Company.

The primary activity of the Company is the business of manufacturing of cold rolled, galvanized and colour coated steel coils and sheets. The Company commenced commercial operations on 01 January 2011. The registered office of the Company is situated at 101, Beaumont Plaza, 10 Beaumont Road, Civil Lines, Karachi - 75530.

The manufacturing facility of the Company is situated at 399-405, Rehri Road, Landhi Industrial Area, Karachi and having sales offices located at Lahore, Islamabad and Multan.

#### **2. BASIS OF PREPARATION**

##### **2.1 Statement of compliance**

These condensed interim financial statements of the Company have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34 'Interim Financial Reporting issued by the International Accounting Standard Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act 2017.

Where the provisions of and directives issued under the Companies Act 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act 2017 have been followed.

##### **2.2 Basis of measurement**

These condensed interim financial statements has been prepared under the historical cost convention except for the Company's liability under defined benefit plan (gratuity) that is determined based on the present value of defined benefit obligation less fair value of plan assets, freehold land & buildings thereon that are stated at fair values determined by an independent valuer and derivative financial instruments which are stated at fair value.

##### **2.3 Functional and presentation currency**

These condensed interim financial statements are presented in Pakistani Rupees which is also the Company's functional currency and all financial information presented has been rounded-off to the nearest thousand Rupee except where stated otherwise.

#### **3. SIGNIFICANT ACCOUNTING POLICIES**

- 3.1** The accounting policies and the methods of computation adopted in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the financial statements for the year ended 30 June 2018 except for the adoption of new standards effective as of 1 July 2018 as referred to in note 3.4 to these condensed interim financial statements.

##### **3.2 New standards, interpretations and amendments adopted by the Company**

The Company has initially adopted IFRS 15 'Revenue from Contracts with Customers' and IFRS 9 'Financial Instruments' from 1 July 2018. The impact of the adoption of these standards and the new accounting policies are disclosed in note 3.4 below. A number of other new standards are effective from 1 July 2018 but they do not have a material effect on the Company's condensed interim financial statements.

##### **3.3 Standards, interpretations and amendments to published approved accounting standards that are not yet effective**

There are certain new standards, interpretations and amendments to the approved accounting standards that will be mandatory for the Company's annual accounting periods beginning on or after 1 July 2019. However, currently management considers that these new standards, interpretations and amendments will not have any significant impact on the financial reporting of the Company and, therefore, have not been disclosed in these condensed interim financial statements.

**International Steels Limited**  
**Notes to the Condensed Interim Financial Statement (Un-audited)**  
*For the nine months period ended 31 March 2019*

**3.4 Changes in accounting policies**

The below note explains the impact of the adoption of IFRS 15 'Revenue from Contracts with Customers' and IFRS 9 Financial Instruments' on the Company's condensed interim financial statements and also discloses the new accounting policies that have been applied from 1 July 2018, where they are different to those applied in prior periods.

**3.4.1 IFRS 15 'Revenue from Contracts with Customers'**

IFRS 15 replaced IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations. The Company has applied the modified retrospective method upon adoption of IFRS 15 as allowed under the Standard. This method requires the recognition of the cumulative effect (without practical expedients) of initially applying IFRS 15 to retained earnings. Accordingly, the information presented for 2017 has not been restated i.e. it is presented, as previously reported under IAS 18 and related interpretations.

The Company manufactures and contracts with customers for the sale of cold rolled, galvanized and colour coated steel coils and sheets which generally include single performance obligation. Management has concluded that revenue from sale of goods be recognised at the point in time when control of the product has transferred, being when the products are delivered to the customer. Invoices are generated and revenue is recognised on delivery of products. Delivery occurs when the products have been shipped to / or and delivered to the customer's destination / specific location, the risks of loss have been transferred to the customer and the customer has accepted the product either as per the sales contract or lapse of acceptance provision or the Company has objective evidence that all criteria for acceptance have been satisfied. Revenue is measured based on the consideration specified in a contract with a customer, net of estimated sales commission and excludes amounts collected on behalf of third parties.

The Company provides retrospective commission to its customers on all products purchased by the customer once the quantity of products purchased during the period exceeds a threshold specified in the contract. A contract liability is recognised for expected sales commission payable to customers in relation to sales made until the end of the reporting period. Further the Company receives short term advances from its customers. Prior to adoption of IFRS 15, a provision for sales commission and advance consideration received from customers was included in 'Trade and other payables' which now is reclassified in 'Contract liabilities' presented separately on statement of financial position. In addition, reclassification has been made from 'Trade and other payables' to 'Contract liabilities' for outstanding balance of advance from customers and sales commission for prior year to provide comparison. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

The above is generally consistent with the timing and amounts of revenue the Company recognised in accordance with the previous standard, IAS 18. Therefore, the adoption of IFRS 15 did not have an impact on the timing and amounts of revenue recognition of the Company.

Apart from providing more extensive disclosures, the application of IFRS 15 has not had a significant impact on the financial position and/or financial performance of the Company for the reasons described above. Accordingly there was no adjustment to retained earnings on application of IFRS 15 at 1 July 2018.

**3.4.2 IFRS 9 Financial Instruments**

IFRS 9 replaces the provisions of IAS 39 'Financial Instruments: Recognition and Measurement' that relates to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting.

The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below:

**Classification and measurement of financial assets and financial liabilities**

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available for sale.

Under IFRS 9, on initial recognition, the Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through Other Comprehensive Income (OCI), or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at fair value through profit or loss:

- it is held within business model whose objective is to hold assets to collect contractual cash flows; and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

**International Steels Limited**  
**Notes to the Condensed Interim Financial Statement (Un-audited)**  
*For the nine months period ended 31 March 2019*

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

The classification and measurement under IFRS 9 does not have any impact on Company's accounting policy. Trade and other receivables and cash and cash equivalents that were classified as loans and receivables under IAS 39 are now classified at amortised cost. Trade receivable is initially measured at transaction price and are subsequently measured at amortised cost using the effective interest method, net of impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

**Impairment**

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. IFRS 9 introduces a forward looking expected credit losses model, rather than the current incurred loss model, when assessing the impairment of financial assets in the scope of IFRS 9. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments.

The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets. Impairment losses related to trade and other receivables, including contract assets, are presented separately in the statement of profit or loss. Trade receivables are written off when there is no reasonable expectation of recovery. Management used actual credit loss experience over past years to base the calculation of ECL on adoption of IFRS 9. Given the Company's experience with customers having good collection history with no historical loss rates / bad debts and normal receivable ageing, the move from an incurred loss model to an expected loss model has not had an impact on the financial position and / or financial performance of the Company.

**4. ACCOUNTING ESTIMATES, JUDGEMENTS AND FINANCIAL RISK MANAGEMENT**

- 4.1** The preparation of condensed interim financial statements requires the management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.
- 4.2** The significant judgements made by management in applying the Company's accounting policies and the key sources of estimating the uncertainty were the same as those that applied to the audited annual financial statements as at and for the year ended 30 June 2018.
- 4.3** The financial risk management objectives and policies adopted by the Company are consistent with those disclosed in the audited annual financial statements as at and for the year ended 30 June 2018.

## International Steels Limited

### Notes to the Condensed Interim Financial Statement (Un-audited)

For the nine months period ended 31 March 2019

- 12.1** The facilities for running finance available from various commercial banks are for the purpose of meeting working capital requirements. The rate of mark-up on these finances ranges from 10.71% to 12.05% (30 June 2018: 6.62% to 8.42%) per annum.
- 12.2** The Company has short term running finance facility under Export Refinance Scheme of the State Bank of Pakistan from a commercial bank. The rate of mark-up on this facility ranges from 2.50% to 3% (30 June 2018: 2.1% to 2.15%) per annum.
- 12.3** The Company has obtained facilities for short term finance under Running Musharakah. The rate of mark-up ranges from 10.71% to 10.86% (30 June 2018: 6.34% to 6.63%) per annum. This facility matures within twelve months and is renewable.
- 12.4** The Company has obtained facilities for short term finance under Term Musharakah. The rate of mark-up ranges from 8.37% to 11.05% (30 June 2018: 6.09% to 6.47%) per annum. This facility matures within twelve months and is renewable.
- 12.5** As at 31 March 2019, the unavailed facilities from the above borrowings amounted to Rs. 14,260 million (30 June 2018: Rs. 4,594 million).
- 12.6** The above facilities are secured by way of joint pari passu charge and ranking charge over current and future moveable assets of the Company.

#### 13. CONTINGENCIES AND COMMITMENTS

##### 13.1 Contingencies

- 13.1.1** The Sindh Finance Act, 1994 prescribed an infrastructure fee at the rate of 1% of the C&F value of all goods entering or leaving the province of Sindh via sea or air. The Sindh High Court on petition filed by the petitioner, passed an interim order directing that every company subsequent to 27 December 2006 is required to clear the goods on paying 50% of the fee amount involved and furnishing a guarantee / security for the balance amount. Bank guarantees issued as per the above mentioned interim order amount to Rs. 1,011.5 million (30 June 2018: Rs. 791.5 million), have been provided to the Department. However, a provision to the extent of amount utilized from the limit of guarantee has also been provided for by the Company on prudent basis (Note 10.2). Subsequently through Sindh Finance Act 2015 and 2016, the legislation has doubled the rate of Sindh infrastructure cess. The Company has obtained stay against these and the ultimate dispute has been linked with the previous infrastructure cess case.

- 13.1.2** In 2011, the Gas Infrastructure Development Cess was levied via GIDC Act 2011 and further the rate of cess was amended via Finance Bill 2012 - 2013 which was challenged in the Supreme Court of Pakistan. The Supreme Court of Pakistan declared GIDC Act 2011 to be unconstitutional and ultra vires on the grounds that GIDC is a 'Fee' and not a 'Tax' and in the alternative it is not covered by any entry relating to imposition or levy of tax under Part-I of the Federal Legislative list and on either counts the 'cess' could not have been introduced through a money bill under the Constitution.

During 2015, the Government passed a new law 'Gas Infrastructure Development Cess Act 2015' ('the Act'), by virtue of which all prior enactments have been declared infructuous. The said Act levies GIDC at Rs. 100 per MMBTU on industrial consumption and Rs. 200 per MMBTU on captive power consumption, effective 01 July 2011. The Company has obtained a stay order on the retrospective application of the Act from the Sindh High Court. The Company is confident of favourable outcome and therefore has not recorded, to the extent of self consumption, a provision of Rs. 380.8 million (from 01 July 2011 till 22 May 2015) in these condensed interim financial statements. However, the Company made a provision of GIDC to the extent of its self consumption from May 2015 onwards. On 26 October 2016, the Sindh High Court held that enactment of GIDC Act 2015 is ultra-vires to the Constitution of Pakistan. Sui Southern Gas Company Limited has filed an intra-court appeal before the Divisional Bench of Sindh High Court. This appeal filed before the Divisional Bench of Sindh High Court was dismissed on the ground that Learned Single Judge while passing the impugned judgement has considered all the material facts and also the relevant provisions of Oil and Gas Regulatory Authority (OGRA) and has correctly applied the factual position. On 31 May 2017, separate petition filed by another company in the Peshawar High Court challenging the vires of the GIDC Act 2015 was dismissed for the reason that the Act has been passed by the Parliament strictly in accordance with the legislative procedures contained in the Constitution of Pakistan and therefore no procedural defect in the Act which could be made as a ground for its annulment. Such decision has been challenged on appeal before Supreme Court of Pakistan, wherein the Company is not the party and decision is pending. In light of aforementioned developments, the Company on prudent basis, continue to recognise provision after the passage of the Act.

Further the Company has not recognized GIDC amounting to Rs. 912.34 million (30 June 2018: Rs. 850 million) pertaining to period from 01 July 2011 to 31 March 2019 with respect to its captive power plant from which power generation is supplied to K-Electric Limited. Management considers that, in the event such levy is imposed, it shall recover GIDC from K-Electric Limited through fuel adjustments after getting requisite approval from National Electric Power Regulatory Authority (NEPRA).

- 13.1.3** Oil and Gas Regulatory Authority (OGRA) revised the gas tariff to Rs. 600 Per MMBTU vide its notification dated 30 December 2016, increasing the rate by Rs. 112 per MMBTU disregarding the protocol laid down in OGRA Ordinance, 2002. The Company filed a suit before the Sindh High Court (the Court) challenging the increase in gas tariff. The Court granted a stay, subject to submission of security for the differential amount with the Nazir of the court. The Company has issued cheques amounting to Rs. 424.8 million (2018: Rs. 348.3 million) in favour of the Nazir of the Court upto September 2018. The Company, on prudent basis, has also accrued this amount in these condensed interim financial statements. OGRA has further revised the gas tariff to Rs. 780 per MMBTU vide its notification dated 04 October 2018, further increasing the rate by Rs. 180 per MMBTU. The Company has filed a

**International Steels Limited**  
**Notes to the Condensed Interim Financial Statement (Un-audited)**  
*For the nine months period ended 31 March 2019*

petition before the court challenging such further revision and the matter is partially heard. Pending the decision on the matter, the Company is settling the bills at the revised rate.

- 13.1.4** Sindh Revenue Board (SRB) issued a notice to the Company for payment of Sindh Workers Welfare Fund under the Sindh Workers Welfare Fund Act, 2014. The Company filed a constitutional petition in the Sindh High Court, challenging the said unlawful demand on the ground that the Company is a trans-provincial establishment operating industrial and commercial activities across Pakistan. The Sindh High Court granted stay order in favor of the Company declaring exemption on the basis that the Company being a trans-provincial establishment is liable to pay Workers Welfare Fund under Federal Workers Welfare Fund Ordinance, 1971. In a separate case, the Sindh High Court has dealt on the subject of trans-provisional establishment in its judgement. A similar view is likely to be taken in this case as well where the liability will have to be discharged in the respective province.
- 13.1.5** The Model Collectorate of Customs (MCC), Peshawar stopped the exports of the Company goods to Afghanistan under the pretext that SRO 190(I) / 2002 dated 2 April 2002 on the account of non-payment of 17% sales tax. A Constitutional Petition in the Sindh High Court (SHC) has been filed on 1 October 2015 arguing that there is no sales tax on exports to Afghanistan as per manufacturing bond rules SRO 450(I) / 2015 and that SRO 190 issued in 2002 were implemented and hence under the Sales Tax Act 1990 no such liability could be raised at this stage. The Court granted a stay order by allowing Company's exports to Afghanistan subject to depositing bank guarantees worth Rs. 2.65 million (30 June 2018: Rs. 2.65 million) (i.e. value of disputed sales tax amount) before the Nazir of the Court. On 30 October 2015 the tax authority issued a clarification as to the applicability of SRO 190(I) / 2002 and stated that exports made to Afghanistan do not attract the levy of sales tax. The same has already been filed before the Court and disposal of the case along with return of the said bank guarantees is awaited.
- 13.1.6** Guarantees issued in favour of Sui Southern Gas Company Limited by the bank amounted to Rs. 404.67 million (30 June 2018: Rs. 269.74 million) as a security for supply of gas.
- 13.1.7** Guarantees issued in favour of Pakistan State Oil Company Limited issued by bank on behalf of the Company amounted to Rs. 53 million (30 June 2018: Rs. 12 million).
- 13.1.8** Guarantees issued in favour of K-Electric Limited issued by bank on behalf of the Company amounted to Rs. 8.67 million (30 June 2018: Rs. 8.67 million).
- 13.1.9** Guarantees issued in favour of Wah Industries issued by bank on behalf of the Company amounted to Rs. 79.30 million (30 June 2018: Rs. 21.80 million).
- 13.1.10** Guarantees issued in favour of Nazir High Court issued by bank on behalf of the Company amounted to Rs. 2.65 million (30 June 2018: Rs. 2.65 million).
- 13.1.11** Guarantees issued in favour of Collector of Customs issued by bank on behalf of the Company amounted to Rs. 4.39 million (30 June 2018: Rs. 4.61 million).
- 13.2 Commitments**
- 13.2.1** Capital expenditure commitments outstanding as at 31 March 2019 amounted to Rs. 443.05 million (30 June 2018: Rs. 581.3 million).
- 13.2.2** Commitments under Letters of Credit for raw materials and spares as at 31 March 2019 amounted to Rs. 8,653.6 million (30 June 2018: Rs. 9,538 million).
- 13.2.3** The unavailed facilities for opening Letters of Credit and Guarantees from banks as at 31 March 2019 amounted to Rs. 14,853 million (30 June 2018: Rs. 10,199.52 million) and Rs. 1,236 million (30 June 2018: Rs. 59.31 million) respectively.

**14.1 DISAGGREGATION OF REVENUE**

As required for the condensed interim financial statements, the Company disaggregated revenue recognised from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

In the following table, revenue is disaggregated by primary geographical markets and major product lines:

	Nine months period ended		Three months period ended	
	31 March 2019	31 March 2018	31 March 2019	31 March 2018
	(Un-audited)

<b>23. TRANSACTIONS WITH RELATED PARTIES</b>				
Related parties comprise the Holding Company, associated undertakings, directors of the Company, key management personnel and staff retirement funds. The Company continues to have a policy whereby transactions with related parties are entered into at commercial terms, approved policy and at rates agreed under a contract / arrangement / agreement. The contribution to defined contribution plan (provident fund) are made as per the terms of employment and contribution to the defined benefit plan (gratuity fund) are made on the basis of latest actuarial advice. Remuneration of key management personnel are in accordance with their terms of engagement.				
Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company. The Company considers its Chief Executive Officer, Chief Financial Officer, Company Secretary, Non-Executive Directors and departmental heads to be its key management personnel. There are no transactions with key management personnel other than their terms of employment / entitlement. Rental income is recognized on straight line basis over the term of the respective lease agreement.				
Details of transactions with related parties, other than those which have been specifically disclosed elsewhere in these condensed interim financial statements, are as follows:

**24. OPERATING SEGMENTS**

- 24.1** These condensed interim financial statements has been prepared on the basis of a single reportable segment.
- 24.2** Revenue from sales of steel products represents 99% (30 June 2018: 99%) of total revenue whereas remaining represent revenue from sale of surplus electricity to K-Electric Limited (KE). The Company does not consider sale of electricity to KE as separate reportable segment as the power plant of the Company is installed primarily to supply power to its Cold Rolling, Galvanizing and Colour Coating Plants and currently any excess electricity is sold to KE.
- 24.3** 95% (30 June 2018: 92%) of sales of steel sheets are domestic sales whereas 5% (30 June 2018: 8%) of sales are export sales.

**25. GENERAL**

- 25.1** Corresponding figures have been rearranged and reclassified, wherever necessary, for the purposes of comparison and better presentation. There have been no significant rearrangements and reclassifications in these condensed interim financial statements.
- 25.2** These condensed interim financial statements was authorised for issue by the Board of Directors on 16 April 2019.
