# **DIRECTORS' REPORT**

In the name of Allah, the Most Gracious, the Most Benevolent and the Most Merciful.

Assalam-o-Alaikum

Dear Members.

The Board of Directors of your Company is pleased to present the un-audited condensed interim financial statement of the Company for the quarter ended March 31, 2019.

#### **Financial Reporting**

During the quarter ended March 31, 2019, the Company has recorded net sales of PKR 687.856 mn a net increase of around 14.40% over corresponding quarter I.e. PKR 601.187 mn. This increase is despite of the difficult conditions of the overall economy and the industry. Gross profit (GP) dropped from 8.99% for corresponding quarter to 5.60% for the quarter under review. However, this GP of 5.60% is significantly improved if compared with GP of 1.89% for September 2018 quarter and GP of 3.00% for December 2018 quarter. Company's financing cost increased to PKR 22.383 mn (PKR 4.229 mn for quarter ended March 2018) mainly due to the financing arrangements for expansion of CPP plant and related area. The Company has during the quarter reported a net loss of PKR 14.825 mn as compared to PKR 9.279 mn profit in the same period last year mainly dut to economic slowdown due to macro economic factors.

#### **Future Outlook**

Another difficult quarter for overall economy. Though Rupee showed some strength against the Dollar and no significant movement was observed on forex end, yet pressure can be observed due to delay in IMF deal and no significant improvement in exports. Discount rates, further jumped from 10% to 10.25% resulting in more pressure on cost of production. During the period, industry focus was completely on to manage the cost of doing business which was significantly increased during the previous quarter due to utility prices and rupee devaluation and also during the quarter under review due to increased raw material prices and discount rates. However, despite of all these factors, markets are now showing strength and demand wise upward momentum towards the end of quarter under review.

During the period your management strived hard to increase the efficiencies and to control the cost of production. New Cast Poly Propylene (CPP) plant has also started its commercial production which started contributing in increasing volume of the Company and this quarter has recorded highest volume of the year to date. Further, with some stability at forex, demand side of the company is consistently on increasing side. We managed to explore other regions as well to not only increasing demand but also to find out the strong customers resulting in more efficient operating cycle. With the start of commercial production of CPP, improved research and development and improved market conditions, we are confident that the company is moving on the right track in terms of efficiency and would achieve the expectation and objectives of its valuable shareholders. In Sha Allah."

#### Acknowledgement

"The Directors of the Company would like to take the opportunity to thank the Securities and Exchange Commission of Pakistan, Shareholders, Partners, Customers, Government Authorities, Autonomous bodies, Financial Institutions and Bankers for their co-operation & continued support.

The Directors are also pleased to record their appreciation of the valuable and untiring efforts and services rendered by the staff of the Company."

On behalf of the Board

CHIEF EXECUTIVE

Karachi

CHIEREXECUTIVE

CHIEF FINANCIAL OFFICER

DIRECTOR

# MACPAC FILMS LIMITED NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED) FOR THE NINE MONTHS ENDED MARCH 31,2019

### 1. STATUS AND NATURE OF THE COMPANY

Macpac Films Limited (the Company) was incorporated on August 19, 1993, in Pakistan as a limited liability company under the repealed Companies Ordinance, 1984 [now Companies Act, 2017 (the Act)] and is listed on the Pakistan Stock Exchange Limited. The registered office of the Company is situated at F/2, A - F, S.I.T.E, Karachi, Pakistan and city office is at Plot # 21, Maqboolabad, Jinnah Cooperative Housing Society,

The principal activity of the company is to manufacture, produce, buy and sell plastic packaging films.

### 2 Statement of compliance

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified by the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

#### 3 Basis of preparation

- 3.1 These condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended June 30, 2018.
- 3.2 Initial application of standards, amendments or an interpretation to existing standards.
- Standards, interpretations and amendments to published approved accounting and reporting standards that became effective during the period

The following accounting standard became effective during the period as applicable in Pakistan for the first time for the period ended December 31, 2018 and are relevant to the Company.

#### IFRS 9 - 'Financial instruments'

This standard addresses the classification, measurement and recognition of financial assets and financial liabilities and replaces the related guidance in IAS 39. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income (OCI) and fair value through profit and loss (P&L). The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI, not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model of IAS 39. For financial liabilities there are no changes to classification and measurement except for the recognition of changes in own credit risk in OCI, for liabilities designated at fair value through profit or loss. IFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes.

The Company's financial assets mainly include long term investments, trade debts, advances, deposits, other receivables and bank balances held with commercial banks.

However, Securities and Exchange Commission of Pakistan through its letter S.R.O 229 (I) /2019 dated February 14, 2019 has has modified the effective date for application of IFRS 9 to 'Reporting period / year ending on or after June 30, 2019.

## IFRS 15 - 'Revenue from contracts with customers'

IFRS 15 'Revenue from Contracts with Customers' supersedes IAS 11 'Construction Contracts', IAS 18 'Revenue' and related interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers.

The Company is engaged in manufacturing, producing, buying and selling plastic packaging films. The Company has assessed that significant performance obligation in contracts with customers is to deliver the products and is discharged at one point of time. Based on the above, the Company considers that its existing accounting policies are substantially in compliance with the requirements of IFRS 15.

b) Standards, interpretations and amendments to published approved accounting and reporting standards that became effective during the period but not relevant

The other new standards, amendments and interpretations that are mandatory for accounting periods beginning on or after January 01, 2018 are considered not to be relevant for the Company's condensed interim financial statements and hence have not been presented here.

- 3.3 The preparation of these condensed interim financial statements, in conformity with the approved accounting and reporting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from the estimates.
- 3.4 During the preparation of these condensed interim financial statements, changes in the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation and uncertainty from those that were applied to the annual audited financial statements of the Company for the year ended June 30, 2018 do not have any material impact.

These condensed interim financial statements are presented in Pakistan Rupee which is also the Company's functional currency and all interim financial information presented has been rounded off to the nearest rupees unless otherwise stated.

### 4. Accounting policies

The accounting policies and method of computation adopted for the preparation of these condensed interim financial statements are the same as those applied in the preparation of the Company's annual audited financial statements for the year ended June 30, 2018 except for the following:

### 4.1 Revenue Recognition

The Company recognises revenue when the goods are transferred to the customer and when performance obligations are fulfilled. Goods are considered to be transferred when the control is transferred to the customer.

### 4.2 Deferred Income

The Company recognises the gain / (loss) on sale and lease back when the sales proceeds exceeds the carrying amount of the asset. The gain / (loss) is recognised over the leased term of the leased assets.
