### Performance Review

The prevailing uncertainty in the current economic scenario of the country has its effects on all the sectors of the economy. In this tough situation, the banking sector is struggling to maintain its profitability. Due to increase in Policy Rate, the cost of deposits increased however, return on assets did not increase in the same period, this lag affected the Bank's profitability. In the backdrop of this situation, the Bank managed to post Rs.187 million profit after tax for the first quarter of the year 2019.

The deposits with a slight increase stood at Rs.171,632 million whereas advances increased by 11% and stood at Rs.110,112 million. Investments with a slight decrease were at Rs.90,205 million.

### **Future Outlook**

Pakistan faces a challenging economic outlook in which a host of factors needed to be addressed. In the current discount rate environment, pressure will likely remain on the Bank's operating performance. The Bank is taking necessary steps to mitigate impact of discount rate volatility and ensure smooth operations.

At the end of the quarter under review, the Bank was operating with 169 branches and 3 sub-branches throughout the country out of which 84 branches were functioning as dedicated Islamic Banking Branches.

While demand for advances remains low due to slow economic growth, all efforts will be made to increase the Advances to Deposit (ADR) ratio. The Bank's strategy is to develop its deposit base on low cost non-government funds through attractive deposit schemes. These funds will help us to offer more and better asset based products to our customers.

### **Credit Rating**

JCR-VIS Credit Rating Company Ltd. (JCR-VIS) has reaffirmed the medium to long term and short term entity ratings of the Bank at "A" (Single A) and "A-1" (A One) respectively. Outlook on the assigned rating is "Stable".

The Pakistan Credit Rating Agency Limited (PACRA) has also maintained the long term and short term entity ratings of the Bank at "A" (Single A) and "A1" (A One). Rating outlook is "Stable".

 $The \ ratings \ denote low \ expectation \ of \ credit \ risk \ emanating \ from \ strong \ capacity \ for \ timely \ payment \ of \ financial \ commitments.$ 

### Acknowledgment

The Board would like to thank the Bank's valued customers for their patronage and continued confidence in the Bank. We are also grateful to the State Bank of Pakistan and other regulatory authorities for their support and guidance.

For and on behalf of the Board of Directors

### **20.4** The income tax assessments of the Bank have been finalized up to tax year 2018.

During financial year 2011, the tax authorities issued an amended order for the tax year 2009 disallowing certain expenditure on account of lack of evidence for such expenditure resulting in an additional tax demand of Rs. 308.900 million. The Bank filed an appeal as well as rectification application against the said order. Based on rectification application, the order was amended and accordingly the additional demand was reduced to Rs. 256.349 million. During 2012, the Commissioner Inland Revenue (Appeals) [CIR (A)] through an order dated June 01, 2012 has deleted certain additions on account of disallowances except for the additions under certain heads of expenses having tax impact of approximately Rs. 23 million. The Bank had filed an appeal against the order of the Appellate Tribunal Inland Revenue (ATIR) in respect of remaining additions which also decided in favor of the Bank. Subsequently, CIR went in to appeal in Peshawar High Court. The management is confident that matter will be decided in Bank's favor.

### 31 FAIR VALUE MEASUREMENTS

The fair value of quoted investments other than those classified as held to maturity is based on quoted market prices. The fair value of unquoted equity investments is determined on the basis of break-up value of these investments as per their latest available audited financial statements. The fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to the absence of current and active market for these assets and liabilities and eliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy.

In the opinion of the management, the fair value of the remaiing financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits, are frequently re-priced.

### 31.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1. Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The valuation techniques used for above assets are same as disclosed in the most recent annual financial statements.

The Bank measuresfair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

### (a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in listed ordinary shares.

### (b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Sukuks Bonds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance certificates, FX options and Forward Exchange Contracts.

### (c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

### Valuation techniques and inputs used in determination of fair values within level 1

Fully paid-up ordinary shares

Fair values of investments in listed equity securities are valued on the basis of closing quoted market prices available at the Pakistan Stock Exchange.

### Valuation techniques and inputs used in determination of fair values within level 2

Pakistan Investment Bonds / Market Treasury Bills

Fair values of Pakistan Investment Bonds and Treasury Bills are derived using the PKRV rates (Reuters page).

Government of Pakistan (GoP) - Ijarah Sukuks

Fair values of GoP Ijarah Sukuks are derived using the PKISRV rates announced by the Financial Market Association (FMA) through Reuters. These rates denote an averageof quotes received from eight different pre-defined/ approved dealers / brokers.

Term Finance, Bonds and Sukuk certificates

Investments in debt securities (comprising term financecertificates, bonds, Sukuk certificates and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. In the determination of the rates, the MUFAP takes into account the holding pattern of these securities and categorises these as traded, thinly traded and non-traded securities.

### Valuation techniques and inputs used in determination of fair values within level 3

Operating fixed assets (Leasehold land)

Leasehold land are revalued on regular basis using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties.
