30 جون 2023 کو ختم ہونے والے سال کے لیے کمپنی کی 60 ویں سالانہ رپورٹ پیش کرنا میرے لیے باعث مسرت ہے۔

زیر جائزہ سال کے دوران، غیر یقینی سیاسی اتار چڑھاؤ، روپے کی قدر میں کمی، مہنگائی میں ریکارڈ اضافے، سود کی شرح میں اضافے اور درآمدات پر پابندیوں کی وجہ سے پاکستان کے مجموعی معاشی حالات ابتر ہوئے ہیں۔ جس کے نتیجے میں، پاکستان آٹوموٹیو مینوفیکچررز ایسوسی ایشن (PAMA) میں آٹو انڈسٹری کے رپورٹ کردہ اعداد و شمار میں گزشتہ سال کے مقابلے میں تنزلی کا رجحان ظاہر ہوا جہاں مجموعی فروخت کا حجم مالی سال 2022 میں 6,498 گاڑیوں سے 41 فیصد کم ہو کر مالی سال 2023 میں 3,836 گاڑیاں رہ گیا۔

کمپنی کی کارکردگی

مالی سال 2023 کے دوران، کمپنی نے اپنی کارکردگی کو جاری رکھتے ہوئے ٹرک اور بس مارکیٹ میں 42% مارکیٹ شیئر کے ساتھ اپنی پہلی پوزیشن کو برقرار رکھا جیسا کہ PAMA نے رپورٹ کیا، کمپنی نے ٹرکوں اور بسوں کے گزشتہ سال کے ٹرکوں اور بسوں کے 3,016 یونٹس کے مقابلے میں اس سال 1,600 یونٹس اور گزشتہ سال کے ڈی میکس پک اپ کے 473 یونٹس کے مقابلے میں اس سال 194 یونٹ فروخت کیے۔ مسلسل چیلنجوں کے باوجود، خریداروں کے اعتماد اور معاونت کے ساتھ، کمپنی نے اپنے مارکیٹ شیئر کو برقرار رکھا ہے اور 179.4 ملین روپے بعد از ٹیکس خالص منافع حاصل کیا ہے۔ کمپنی آنے والے برسوں میں اپنے تمام قابل قدر صارفین کو جدید ترین مصنوعات اور بہتر معیار کی خدمات فراہم کرنے کی کوشش جاری رکھے گی۔

بورڈ کی کارکردگی اور افادیت

بورڈ، کمپنی کے مالی اور آپریشنل نتائج پر غور و خوض اور منظوری کے لیے ہر سہ ماہی میں کم از کم ایک بار اجلاس کا انعقاد کرتا ہے۔ زیر جائزہ مالی سال کے دوران، بورڈ کی کارکردگی اور تاثیر کا جائزہ لینے کے لیے بورڈ کی تشخیص کی گئی جسے اطمینان بخش پایا گیا۔ بورڈ کمپنی کے وژن، مشن اور اقدار کو مد نظر رکھتے ہوئے مزید بہتری لانے کی کوشاں ہے۔

مستقبل کا منظر نامہ

اللہ تعالیٰ کے فضل و کرم سے کمپنی کا کسٹمر بیس بڑھ رہا ہے۔ کمپنی اپنی متحرک جدت پسند ٹیم کے ذریعے مالی سال 2024 میں اپنی مارکیٹ لیڈر کی پوزیشن کو مستحکم کرنے کے لیے فروخت کے حجم اور آمدنی کو بڑھانے کے ٹھوس منصوبے رکھتی ہے۔

زیر جائزہ سال کے دوران بورڈ آف ڈائریکٹرز (BoD) کے چھ، بورڈ آڈٹ کمیٹی (BAC) کے چار اور ہیومن ریسورس اینڈ ریمو نیویشن (HR&R) کا ایک اجلاس ہوا۔ بورڈ کے اجلاسوں میں حاضری درج ذیل رہی:

مالیاتی لاگت

سال کے دوران پالیسی کی شرح میں اضافے کی وجہ سے کمپنی کی مالی لاگت فروخت کے فیصد کے طور پر بڑھی ہے۔ تاہم، پالیسی کی شرح میں اضافہ ایک مسلسل خطرہ ہے۔ انتظامیہ قرضوں کو مزید بہتر بنا کر ان اخراجات کا مؤثر طریقے سے انتظام کرنے پر اعتماد ہے۔

ہولڈنگ کمپنی

پاکستان میں قائم شدہ پیو جی سروسز (پرائیویٹ) لمیٹڈ، 39.16 فیصد شیئرز کی براہ راست ملکیت اور کچھ دیگر بالواسطہ شیئرز ہولڈنگ کے ذریعے ہماری ہولڈنگ کمپنی ہے۔

ڈیویڈنڈ

بورڈ ڈائریکٹرز اور اس کی کمیٹیاں

30 جون 2023 تک کمپنی کا بورڈ آف ڈائریکٹرز درج ذیل پر مشتمل ہے:

ڈائریکٹرز کی مجموعی تعداد

06	مرد
01	خواتین

ساخت

02	آزاد ڈائریکٹرز
03	نان ایگزیکٹو ڈائریکٹرز
02	ایگزیکٹو ڈائریکٹرز

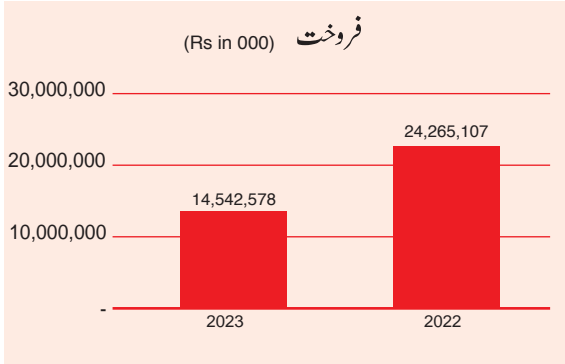

آپریٹنگ نتائج مجموعی منافع

سال کے دوران کمپنی کے مجموعی منافع میں سال کے دوران فروخت کے فیصد کے طور پر اضافہ ہوا، جس کی بنیادی وجہ بہتر انتظام کاری ہے۔

نی شیئر آمدنی

بعد از ٹیکس بنیادی اور تحلیل شدہ آمدنی 4.21 روپے ہے
[2022: نی شیئر آمدنی 17.10]۔

فروخت

جیسا کہ اوپر روشنی ڈالی گئی مجموعی ٹرک اور بس مارکیٹ میں فروخت کے رجحان میں کمی کی وجہ سے، کمپنی کی فروخت آمدنی کم ہو کر 14.54 بلین روپے رہ گئی۔ مقابلہ جوں گزشتہ سال 24.27 بلین تھی۔ اس کے علاوہ، آپ کی کمپنی نے مارکیٹ شیئر میں اپنی پہلی پوزیشن کو 42% تک برقرار رکھا ہے۔ کمپنی بعد از فروخت سروس کے اعتبار کے ساتھ ایک بے مثال اور کفایتی پروڈکٹ لائن اپ کی بنیاد پر بہتر کارکردگی کا مظاہرہ کرنے پر پراعتماد ہے۔

تقسیم اور انتظامی اخراجات

منہرگائی کی وجہ سے فروخت کے مقابلے میں تقسیم اور انتظامی اخراجات میں اضافہ ہوا ہے، تاہم کمپنی آنے والے معاشی چیلنجز کے اثرات سے آگاہ ہے اور بہتر منصوبہ بندی اور مذاکرات کے ذریعے ان کا مقابلہ کرنے کے لیے تیار ہے۔

ڈائریکٹرز کی شہرہ ہولڈرز کو رپورٹ

آپ کی کمپنی کے ڈائریکٹرز 30 جون 2023 کو ختم ہونے والے سال کے لیے کمپنی 60 ویں سالانہ رپورٹ اور آڈٹ شدہ مالیاتی اعداد و شمار پیش کرتے ہوئے خوشی محسوس کرتے ہیں۔

معیشت اور مارکیٹ کا جائزہ

مالی سال 2023 میں پاکستان کی معیشت مختلف عوامل کی وجہ سے غیر یقینی کا شکار رہی۔ کم ہوتے غیر ملکی ذخائر سے خام مال کی قیمتوں میں اضافہ، ایندھن کی قیمتوں پر بین الاقوامی وباؤ کی وجہ سے آپریشن کی لاگتوں میں زیادتی، روپے کی قدر میں مسلسل کمی، شرح سود میں اضافہ اور افراط زر کی شرح جیسی وجوہات کی بنا پر کاروبار کرنے کی لاگت میں اضافہ ہوا جس کے نتیجے میں پوری اقتصادیات خاص طور پر آٹو سیکٹر متاثر ہوئی۔ جس نے مالی سال 2022 کے مقابلے میں تنزلی کے رجحان کو جاری رکھا۔

مالی سال 2023 میں ٹرک اور بس مارکیٹ میں 3,836 گاڑیوں کے ساتھ 41 فیصد کمی واقع ہوئی ہے۔ تمام بیرونی چیلنجوں کے باوجود، ہماری کمپنی نے وسیع منصوبہ بندی اور ٹیم ورک کے ساتھ اپنے اعلیٰ مارکیٹ شیئر کو برقرار رکھا اور مالی سال 2024 میں اپنی پوزیشن کو مزید بہتر بنانے کیلئے نئے کسٹمرز اور نئی مارکیٹوں کی کھوج میں اپنی صلاحیتوں کو بروئے کار لائے گی۔

کمپنی کی اہم سرگرمیاں

گندھارا انڈسٹریز لمیٹڈ (کمپنی) پاکستان میں بطور پبلک لمیٹڈ قائم اور پاکستان اسٹاک ایکسچینج (PSX) میں مندرج ہے۔ ISUZU بسوں، ٹرکوں اور پک اپ ٹرکوں کی اسمبلی، پروگریسیو مینوفیکچرنگ اور مارکیٹنگ کمپنی کی اہم سرگرمی ہے۔

اہم خطرات اور غیر یقینی صورت حال

کمپنی کے اہم خطرات مارکیٹ میں مسابقت، زروپے کی قدر میں کمی، شرح سود، مجموعی معاشی اور سیاسی صورتحال شامل ہیں جو کمپنی کی مالی حیثیت متاثر کر سکتے ہیں۔

(پوسٹل بیٹ) ریگولیشنز، 2018 کی شق 11 کے مطابق، آئندہ سالانہ اجلاس عام کے مقصد کیلئے جانچ پڑتال کرنے والے (اسکروٹائزر) سے متعلق معلومات ذیل میں دی گئی ہیں:

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key Audit Matters:

Also the Company, incurred capital expenditure with additions made to its operating fixed assets as disclosed in note 5.1 to the financial statements.

We identified this as a key audit matter as these represents significant transactions and involves certain estimates and judgements.

We performed following audit procedures in respect of this area:

On a sample basis, tested the costs incurred with underlying supporting documentations i.e. purchase orders, delivery challans, supplier invoices, payment and other relevant documents;

Evaluate the nature of costs on a sample basis to ensure capitalization criteria of relevant accounting and reporting standards;

We identified this area as a key audit matter because stock-in-trade constitutes 32.68% of the total assets of the Company as at June 30, 2023 and determining an appropriate valuation as a result of net realizable value (NRV) involves management judgement and estimation.

Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

2. BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017.

Where provision of and directives issued under the Companies Act, 2017 differ from the IFRS, the provision of and directives issued under the Companies Act, 2017 have been followed.

2.2 Functional and presentation currency

These financial statements are presented in Pakistan Rupees which is the functional currency of the Company and figures are rounded off to the nearest thousand of Rupees unless otherwise specified.

2.3 New and amended standards and interpretations

2.3.1 Standards and amendments to approved accounting standards effective in current year

New and amended standards mandatory for the first time for the financial year beginning July 1, 2022:

- (a) Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' is applicable for accounting periods beginning on or after January 1, 2022. Under IAS 37, a contract is 'onerous' when the unavoidable costs of meeting the contractual obligations – i.e. the lower of the costs of fulfilling the contract and the costs of terminating it – outweigh the economic benefits. The amendments clarify that the 'costs of fulfilling a contract' comprise both the incremental costs – e.g. direct labour and materials; and an allocation of other direct costs – e.g. an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract.
- (b) Amendment to IAS 16 'Property, Plant and Equipment' is applicable on accounting periods beginning on or after January 1, 2022. The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss. The amendments apply retrospectively, but only to items of PPE made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

There were certain other amendments to accounting and reporting standards which became mandatory for the Company during the current year but are considered not to be relevant or have any significant effect on the Company's financial reporting therefore have not been disclosed in these financial statements.

2.3.2 Standards, amendments to approved accounting standards and interpretations that are not yet effective and have not been early adopted by the Company

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 1, 2022 and have not been early adopted by the Company:

- (a) Amendments to IAS 1, 'Presentation of Financial Statements' is applicable on accounting periods beginning on or after January 1, 2023. The amendments includes requiring companies to disclose their material accounting policies rather than their significant accounting policies, clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed and also clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.
- (b) Amendments to IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors' will be applicable on accounting periods beginning on or after January 1, 2023. The International Accounting Standards Board (the Board) has issued amendments to end diversity in treatment of accounting estimates and clarified how companies should distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates. Developing an accounting estimate includes both selecting a measurement technique (estimation or valuation technique) – e.g. an estimation technique used to measure a loss allowance for expected credit losses when applying IFRS 9 Financial Instruments; and – choosing the inputs to be used when applying the chosen measurement technique – e.g. the expected cash outflows for determining a provision for warranty obligations when applying IAS 37 Provisions, Contingent Liabilities and Contingent Assets. The effects of changes in such inputs or measurement techniques are changes in accounting estimates.
- (c) Amendments to IAS 12, 'Income taxes' will be applicable on accounting periods beginning on or after January 1, 2023. The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognise a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision.
- (d) Amendments to IAS 1 'Presentation of Financial Statements' is applicable on accounting periods beginning on or after January 1, 2023. Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of this amendments, the requirement for a right to be unconditional has been removed and instead, the amendments requires that a right to defer settlement must have substance and exist at the end of the reporting period.
- (e) Amendments to IFRS 16 'Leases' are applicable on accounting periods beginning on or after January 1, 2024. Amendments impact how a seller-lessee accounts for variable lease payments that arise in a sale-and-leaseback transaction. On initial recognition, the seller-lessee includes variable lease payments when it measures a lease liability arising from a sale-and-leaseback transaction. After initial recognition, the seller-lessee applies the general requirements for subsequent accounting of the lease liability such that it recognises no gain or loss relating to the right of use it retains. The amendments introduce a new accounting model for variable payments and will require seller-lessees to reassess and potentially restate sale-and-leaseback transactions entered.

- (f) Amendments to IAS 1 'Presentation of Financial Statements' is applicable on accounting periods beginning on or after January 1, 2024. Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of this amendments, the requirement for a right to be unconditional has been removed and instead, the amendments requires that a right to defer settlement must have substance and exist at the end of the reporting period. This right may be subject to a company complying with conditions (covenants) specified in a loan arrangement. At October 31, 2022, after reconsidering certain aspects of the amendments, the IASB reconfirmed that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current. Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability's classification at that date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date.

The management anticipates that the adoption of the above standards, amendments and interpretations in future periods, will have no material impact on the financial statements other than in presentation / disclosures. There are number of other standards, amendments and interpretations to the approved accounting standards that are not yet effective and are also not relevant to the Company and therefore, have not been presented here.

3. BASIS OF MEASUREMENT

- 3.1** These financial statements have been prepared under the historical cost convention, except for certain classes of property, plant and equipment which have been included at revalued amounts and staff retirement benefit which has been recognised at present value as determined by the Actuary.
- 3.2** The preparation of financial statements in conformity with approved accounting standards requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The areas where various assumptions and estimates are significant to the Company's financial statements or where judgement was exercised in application of accounting policies are as follows:

- (i) Estimate of residual values and useful lives of depreciable and intangible assets (note 4.1 and 4.3)
- (ii) Lease term and discount rate for calculation of lease liabilities (note 4.2)
- (iii) Provision for taxation (note 4.10)
- (iv) Provision for staff benefits (note 4.12)
- (v) Provisions (note 4.20)

4. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These polices have been consistently applied to all the years presented, unless otherwise stated.

4.1 Property, plant and equipment

Leasehold land is stated at revalued amount and buildings on leasehold land are stated at revalued amount less accumulated depreciation and impairment loss (if any). Other classes of operating fixed assets are stated at cost less accumulated depreciation and impairment loss (if any). Capital work-in-progress is stated at cost less impairment loss (if any). All expenditure connected to the specific assets incurred during the installation and construction period are carried under capital work-in-progress. These are transferred to specific assets as and when the assets are available for use.

Plant and machinery were revalued in the year 1995 by independent valuers, and were presented at their revalued amount. The Company subsequently adopted the cost model for plant and machinery, and the revalued amounts were treated as deemed costs. The surplus on revaluation of these assets, however, were recognised in accordance with section 235 of the repealed Companies Ordinance, 1984 applicable at that time.

Subsequent costs are included in the asset's carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All repairs and maintenances are charged to the profit or loss as and when incurred.

Depreciation on all operating fixed assets is charged using the straight line method in accordance with the rates specified in note 5.1 to these financial statements and after taking into account their residual values. The depreciation method, residual values and useful lives of items of property, plant and equipment are reviewed periodically and altered if circumstances or expectations have changed significantly. Any change is accounted for as a change in accounting estimate by changing depreciation charge for the current and future periods.

Depreciation on additions is charged from the month in which the assets become available for use, while on disposals depreciation is charged upto the month of disposal.

Gains or losses on disposal or retirement of fixed assets are determined as the difference between the sale proceeds and the carrying amounts of the assets and are included in the profit or loss.

Revaluation is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from their fair value. Any surplus on revaluation of fixed assets is recognised in other comprehensive income and presented as a separate component of equity as "Surplus on revaluation of fixed assets", except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of fixed assets is charged to profit or loss to the extent that it exceeds the balance, if any, held in the revaluation surplus on fixed assets relating to a previous revaluation of that asset. Each year, the incremental depreciation charged on the revalued assets (net of deferred taxation) is reclassified from surplus on revaluation of fixed assets to unappropriated profit. The revaluation reserve is not available for distribution to the Company's shareholders.

The Company assesses at each reporting date whether there is any indication that property, plant and equipment may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is taken to profit or loss except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of that asset. The revaluation reserve is not available for distribution to the Company's shareholders.

The Company assesses at each reporting date whether there is any indication that property, plant and equipment may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is taken to profit and loss account except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of that asset.

4.2 Right of use assets and related liabilities

The Company generally leases regional offices and related properties. At the inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

Leases are recognised as right of use assets and corresponding liabilities at the date at which the leased assets are available for use by the Company.

The lease liabilities are initially measured at the present value of the remaining lease payments at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. At initial recognition, liabilities were discounted using the Company's incremental borrowing rate. Lease payment includes fixed payments with annual increments. The lease liabilities are subsequently measured at amortised cost using the effective interest rate.

Right of use assets are initially measured based on the initial amount of the lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received. The right of use assets are depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The carrying amount of the right of use asset is reduced by impairment losses, if any. At transition, the Company recognised right of use assets equal to the present value of lease payments.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in statement of profit or loss. Short-term leases are leases with a lease term of 12 months or less.

4.3 Intangible assets - computer software

Computer software licenses acquired by the Company are stated at cost less accumulated amortization. Cost represents the cost incurred to acquire the software licenses and bringing them to use. The cost of computer software is amortized over the estimated useful life i.e. 5 years using straight-line method.

Costs associated with maintaining computer software are charged to profit or loss as and when incurred.

4.4 Long term investment

Investment in Subsidiary Company is carried at cost less impairment, if any.

4.5 Long term deposits

These are stated at cost which represents the fair value of the consideration given.

4.6 Stores

These are valued at cost determined on a first-in-first-out basis. Items in transit are stated at invoice value plus other charges thereon accumulated upto the reporting date.

Provision for obsolete and slow moving stores is determined based on management's estimate regarding their future usability.

4.7 Stock-in-trade

Stock-in-trade is valued at the lower of cost and net realizable value except for goods in transit which are stated at invoice values plus other charges thereon accumulated upto the reporting date. Cost in relation to raw materials, components and trading stock (except for parts and accessories included in trading stock which are valued on average basis) is arrived at principally on first-in-first-out basis. Cost of work in process and finished stocks including components include direct wages and applicable manufacturing overheads.

Net realizable value represents the estimated selling price in the ordinary course of business less cost necessarily to be incurred in order to make the sale.

4.8 Trade debts and other receivables

Trade debts and other receivables are classified as financial assets at amortised cost according to IFRS 9.

Trade and other debts are carried at original invoice amount being the fair value. Provision is made against debts considered doubtful of recovery whereas debts considered irrecoverable are written off. The Company uses simplified approach for measuring the expected credit losses for all trade and other receivables including contract assets based on lifetime expected credit losses. The Company has estimated the credit losses using a provision matrix where trade receivables are grouped based on different customer attributes along with historical, current and forward looking assumptions. Debts considered irrecoverable are written off.

4.9 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at amortised cost. For the purposes of cash flow statement, cash and cash equivalents comprise of cash in hand, cash with banks and short term borrowings under mark-up arrangements.

4.10 Taxation

The tax expense for the year comprises of current and deferred tax. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in the previous years arising from assessments framed during the year for such years.

Deferred

The Company accounts for deferred taxation using the balance sheet liability method on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred tax liability is recognised for taxable temporary differences and deferred tax asset is recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the profit or loss, except in the case of items credited or charged to other comprehensive income / equity in which case it is included in other comprehensive income / equity.

4.11 Finance lease / Assets subject to finance lease

Leases that transfer substantially all the risk and rewards incidental to ownership of an asset are classified as finance leases. Assets on finance lease are capitalised at the commencement of the lease term at the lower of the fair value of leased assets and the present value of minimum lease payments, each determined at the inception of the lease. Each lease payment is allocated between the liability and finance cost so as to achieve a constant rate on the finance balance outstanding. The finance cost is charged to statement of profit or loss and is included under finance cost.

4.12 Retirement benefit obligations

4.12.1 Defined benefit plan

The Company operates a funded gratuity scheme. The scheme defines the amounts of benefits that an employee will receive on or after retirement subject to a minimum qualifying period of service under the scheme. The amount of retirement benefit is usually dependent on one or more factors such as age, years of service and salary.

The liability recognised in the statement of financial position in respect of defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period less fair value of plan assets. Contributions under the schemes are made on the basis of actuarial valuation. The valuation of scheme is carried out annually by an independent expert, using the "Projected Unit Credit Method" with the latest valuation being carried out as on June 30, 2023.

The amount arising as a result of re-measurements are recognised in the statement of financial position immediately, with a charge or credit to other comprehensive income in the periods in which they occur. Past service cost, if any, are recognised immediately in statement of profit or loss.

4.12.2 Compensated absences

Employees' entitlements to annual leaves are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees upto the reporting date.

4.13 Trade and other payables

Trade and other payables are measured at cost which is the fair value of consideration to be paid in future for goods and services received, whether or not billed to the Company.

Warranty

The Company recognises the estimated liability to repair or replace products still under warranty at the reporting date. Provision for warranty is calculated by taking average of preceding three years sales.

4.14 Revenue recognition

The Company recognises revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those good and services. The Company recognises revenue in accordance with that core principle by applying the following steps:

- Identify the contract with a customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognise revenue when the entity satisfies a performance obligation

Revenue from sale of goods is recognized when the Company satisfies a performance obligation (at a point of time) by transferring promised goods to customer being when the goods are invoiced and delivered to customers. Revenue is measured at the fair value of consideration received or receivable, and represents amount receivable for goods supplied and sales tax.

Interest income is accrued on a time basis, by reference to the principal outstanding and the interest rate applicable.

4.15 Borrowings and their cost

Borrowings are recorded at the proceeds received. Borrowing costs are recognised as an expense in the period in which these are incurred except to the extent of borrowing cost that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalised as part of the cost of that asset.

4.16 Government grants

Government grants are recognized where there is a reasonable assurance that the grant will be received and the Company will comply with all conditions of the grant. Government grants relating to costs are deferred and recognized in the statement of profit or loss over the period necessary to match them with the costs that they are intended to compensate.

4.17 Foreign currency translation

Transactions in foreign currencies are translated into reporting currency at the rates of exchange prevailing on the date of transactions. Monetary assets and liabilities denominated in foreign currencies are translated into reporting currency equivalents using year-end foreign exchange rates. Non-monetary assets and liabilities are translated using the exchange rate that existed when the values were determined. Exchange differences on foreign currency translations are taken to the statement of profit or loss.

4.18 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Company becomes a party to the contractual provisions of the instrument and derecognised when the Company loses control of

contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of financial assets and financial liabilities is included in the profit or loss for the year. All financial assets and liabilities are initially measured at cost, which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value, amortised cost or cost as the case may be. The particular measurement methods adopted are disclosed in individual policy statement associated with each item.

4.19 Off-setting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

4.20 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

4.21 Dividend and appropriation to reserves

Dividend and other appropriations to reserves are recognised in the period in which they are approved.

4.22 Impairment loss

The carrying amounts of the Company's assets are reviewed at each reporting date to identify circumstances indicating occurrence of impairment loss or reversal of provisions for impairment losses. If any indications exist, the recoverable amounts of such assets are estimated and impairment losses or reversals of impairment losses are recognised in the profit or loss. Reversal of impairment loss is restricted to the original cost of the asset.

4.23 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss after taxation attributable to ordinary shareholders of the Company by weighted average numbers of ordinary shares outstanding during the year.

4.24 Segment reporting

Segment information is presented on the same basis as that used for internal reporting purposes by the Chief Operating Decision Maker, who is responsible for allocating resources and assessing performance of the operating segments. On the basis of its internal reporting structure, the Company considers itself to be a single reportable segment.

22.2.11 Sensitivity analysis for actuarial assumptions

The sensitivity of the defined benefit obligation to changes in principal assumptions is:

	Change in assumption	Value of defined benefit obligation

(Rupees in thousand)			
Discount rate	1.00%	208,901	244,953
Increase in future salaries	1.00%	244,947	208,899

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and change in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the project unit credit method at the end of reporting period) has been applied as when calculating the gratuity liability recognised within the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

22.2.12 Based on actuary's advice, the expected charge for the year ending June 30, 2024 amounts to Rs. 36.691 million.

42.2 Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including foreign exchange risk and interest / mark-up rate risk). The Company's overall risk management program focuses on having cost effective funding as well as manage financial risk to minimize earnings volatility and provide maximum return to shareholders.

(a) Credit risk

Credit risk represents the accounting loss that would be recognised if counterparties fails to perform as contracted. Credit risk mainly arises from loans & advances, deposits, trade debts, other receivables and bank balances. The financial assets exposed to credit risk aggregated to Rs. 3,559.721 million (2022: Rs. 4,049.117 million).

The Company believes that it is not materially exposed to credit risk as; (i) trade debts mainly represent receivables from government, semi-government agencies and dealers, (ii) deposits mainly include margin against letters of credit and bank guarantees held with banks having good credit ratings and (iii) balances placed with banks having good credit ratings assigned by credit rating agencies.

The Company attempts to control credit risk by monitoring credit exposure, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligation as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and bank balances and availability of funding through an adequate amount of committed credit facilities. The Company aims to maintain flexibility in funding by keeping committed credit lines open.

The maturity profile of the Company's liabilities based on maturities is disclosed in note 42.1 of these financial statements.

(c) Market risk

Foreign exchange risk

Foreign exchange risk arises mainly when receivables and payables exist due to transactions based on currencies other than Pak Rupee. At June 30, 2023, payables exposed to foreign exchange risk are Rs.127.43 million (2022: Rs.72.68 million). The liability and receivable are denominated in Japanese Yen / US Dollars.

At June 30, 2023, if Pak Rupee had weakened / strengthened by 9% (2022:9%) against Japanese Yen and US Dollars with all other variables held constant, profit before tax for the year would have been lower / higher by Rs.11.47 million (2022: Rs.6.54 million), mainly as a result of foreign exchange loss / gain on translation of Japanese Yen and dollars denominated financial liabilities.

The sensitivity of foreign exchange rate looks at the outstanding foreign exchange balances of the Company as at the reporting date. The volatility percentage for movement in foreign exchange rates has been used due to the fact that historically (5 years) rate has moved on average basis by the mentioned percentage per annum.

Interest / mark-up rate risk

Interest / mark-up rate risk is the risk that the value of a financial instrument will fluctuate due to changes in the market interest / mark-up rates. At June 30, 2023, the Company's interest bearing financial liabilities of Rs. 3,352.78 million (2022: Rs. 4,553.42 million) represent the short term borrowings at floating rate to manage the working capital requirements of the Company and obligation under assets subject to finance lease. These liabilities are re-priced at a maximum period of six months. The effective mark-up rates for financial assets and liabilities are mentioned in respective notes to the financial statements.

Had the interest rates varied by 200 basis points with all other variables held constant, (loss) / profit before tax for the year would have been approximately higher / lower by Rs. 67.06 million (2022: Rs. 91.07 million).

The sensitivity of 200 basis points movement in the interest rates has been used as historically (five years) floating interest rates have moved by an average of 200 basis per annum.

42.3 Price risk

The Company is not exposed to any price risk as it does not hold any investments exposed to price risk.

42.4 Fair values of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is going concern and there is no intention or requirement to curtail materially the scale of its operation or to undertake a transaction on adverse terms.

The estimated fair value of all financial assets and liabilities is considered not significantly different from book values as the items are either short - term in nature or periodically repriced.

International Financial Reporting Standard 13, 'Financial Instruments : Disclosure' requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities [Level 1].
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) [Level 2].
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) [Level 3].

Currently there are no financial assets or financial liabilities which are measured at their fair value in the statement of financial position.

43. CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders and / or issue new shares. There was no change to the Company's approach to capital management during the year. The Company monitors capital on the basis of gearing ratio calculated as follows:
