## Chairman's Review

I am pleased to present my review as Chairman of the Board of Directors of Awwal Modaraba Management Limited, the management company of First Prudential Modaraba.

The outgoing year was marked with several critical developments in the political and economic fronts. General elections were held successfully in February 2024 and continued political stability as well as improvements in the security situation are essential for continued economic revival. Following a contraction in FY23, Pakistan's GDP grew in FY24 at 2.4% driven by the agricultural sector. We expect the economy to continue its recovery trend in FY25 with several positive indicators including stability in exchange rate, lower inflation and interest rates, and a recovering capital market.

During the year, the government successfully secured \$3 billion Stand-By Arrangement ("SBA") program with the International Monetary Fund ("IMF") which is expected to be followed by a decision on USD 7.0 billion Extended Fund Facility ("EFF") on September 25. Global rating agency, Moody's, also upgraded Pakistan's local and foreign currency issuer and senior unsecured debt ratings to Caa2 from Caa3 in August 2024 with Positive Outlook in view of the improving macroeconomic and external positions.

Monetary policy has been supportive of economic growth in view of declining inflation with consecutive rate cuts since June 2024 of 450 bps with Policy rate at 17.5% in September 2024. Overall inflation fell to 12.6% YoY in June 2024 from 29.7% YoY in December 2023. However, energy inflation continues to impact business growth.

In September 2023, the Board of Directors of Pak Brunei Investment Company Ltd. ("Pak Brunei") took the strategic decision to divest its total interest in AMML to an appropriate investor followed by a Share Purchase Agreement in April 2024. On September 19, 2024, Registrar Modaraba, SECP granted approval regarding the transfer of 100% shareholding of AMML from Pak Brunei Investment Company to Wasl Investment Finance Limited. The shares of AMML, along with the management rights of the Modaraba, will be transferred to WASL after completion of applicable corporate formalities.

In light of this decision, the modaraba has followed a conservative approach in operations to maintain robust asset quality and profitability. Core profitability improved in FY24 with total revenues increased from PKR 178.53 million in FY23 to PKR 201.65 million in FY24. Administration expenses were contained at PKR 62.57 million during the year. Financial expenses arising from PKR 150 million borrowing from Pak Brunei increased to PKR 36.44 million, however, are expected to reduce in line with the reducing interest rate scenario.

FPRM incurred provisioning under IFRS-9 of PKR 13.84 million in FY24. In the previous year, there were additional benefits of approx. PKR 46 million arising from unrealized gain on revaluation of properties and reversal of provisioning against doubtful receivables. Total profit after taxation, therefore, was lower than previous year at PKR 61.70 million in FY24 arising compared to PKR 98.55 million in the previous year.

Going forward, top line growth will be impacted in view of declining interest rates and low leverage position of the modaraba. The management will have to plan for increased volumes while maintaining asset quality. In contrast to previous years, the modaraba has now an established track record of business growth and profitability which puts it in a strong position to raise funds for business growth.

The Board of Directors of the management company comprises five members, including two Independent Non-Executive Directors and one female Director. The Board performs its statutory duties and fulfils its responsibilities by ensuring that the Modaraba has a capable leadership and an effective executive management team. The board, on quarterly basis, undertakes an overall review of business risks to ensure that Management maintains a sound system of risk identification, risk management and related systemic internal controls to safeguard assets, resources, reputation and interest of the company and its stakeholders.

On behalf of the Board, I take this opportunity to thank all our customers, investors, regulators and other stakeholders for placing their trust in the Modaraba.

Khalid Aziz Mirza  
Chairman

## چیئرمین کی جائزہ رپورٹ

مجھے اول مضاربہ مینجمنٹ لمیٹڈ کے بورڈ آف ڈائریکٹرز کے چیئرمین کے طور پر اپنا جائزہ پیش کرتے ہوئے خوشی ہو رہی ہے، جو فرسٹ پرنڈیشنل مضاربہ کی انتظامی کمپنی ہے۔

گزشتہ سال سیاسی اور اقتصادی محاذوں پر کئی اہم پیش رفتوں کے ساتھ نشان زد ہوا۔ عام انتخابات فروری 2024 میں کامیابی سے ہوئے اور معاشی بحالی کے لیے سیاسی استحکام کا تسلسل ضروری ہے۔ مالی سال 23 میں سکڑاؤ کے بعد، مالی سال 24 میں پاکستان کی جی ڈی پی میں 2.4 فیصد اضافہ ہوا جو کہ زرعی شعبے کی وجہ سے تھا۔ ہم توقع کرتے ہیں کہ معیشت مالی سال 25 میں اپنی بحالی کے رجحان کو جاری رکھے گی جس میں متعدد مثبت اشارے شامل ہیں جن میں زر مبادلہ کی شرح میں استحکام، افراط زر اور شرح سود میں کمی، اور کیپیٹل مارکیٹ کی بحالی شامل ہیں۔

سال کے دوران، حکومت نے بین الاقوامی مالیاتی فنڈ ("IMF") کے ساتھ \$3 بلین اسٹینڈ بائی ارینجمنٹ ("SBA") پروگرام کو کامیابی سے حاصل کیا جس کے بعد 7.0 بلین امریکی ڈالر کی توسیعی فنڈ سہولت ("EFF") کے فیصلے کی توقع ہے۔ 25 ستمبر کو عالمی ریٹنگ ایجنسی، موڈیز نے پاکستان کے مقامی اور غیر ملکی کرنسی جاری کرنے والے اور سینئر غیر محفوظ قرضوں کی درجہ بندی کو اگست 2024 میں Caa3 سے Caa2 میں اپ گریڈ کیا جس میں معاشی اور بیرونی پوزیشنوں میں بہتری کے پیش نظر مثبت آؤٹ لک کے ساتھ۔

مانیٹری پالیسی جون 2024 سے لگاتار شرحوں میں کمی کے ساتھ گرتی ہوئی افراط زر کے پیش نظر معاشی نمو کے لیے معاون رہی ہے جس میں ستمبر 2024 میں پالیسی ریٹ 17.5 فیصد کے ساتھ 450 bps ہے۔ مجموعی طور پر افراط زر جون 2024 میں 12.6% YoY تک گر گیا جو دسمبر 2023 میں 29.7% YoY تھا۔ تاہم، توانائی کی افراط زر کاروبار کی ترقی کو متاثر کرتی ہے۔

ستمبر 2023 میں، پاک برونائی انویسٹمنٹ کمپنی لمیٹڈ ("پاک برونائی") کے بورڈ آف ڈائریکٹرز نے AMML میں اپنی کل دلچسپی کو ایک مناسب سرمایہ کار کے حوالے کرنے کا اسٹریٹجک فیصلہ لیا جس کے بعد اپریل 2024 میں شیئر کی خریداری کا معاہدہ ہوا۔ 19 ستمبر کو، 2024، رجسٹرار مضاربہ، ایس ای سی پی نے پاک برونائی انویسٹمنٹ کمپنی سے AMML کی 100% شیئر ہولڈنگ وصل انویسٹمنٹ فنانس لمیٹڈ کو منتقل کرنے کے حوالے سے منظوری دے دی۔ AMML کے حصص، مضاربہ کے انتظامی حقوق کے ساتھ، قابل اطلاق کارپوریٹ رسمی کارروائیوں کی تکمیل کے بعد WASL کو منتقل کر دیے جائیں گے۔

اس فیصلے کی روشنی میں، مضاربہ نے مضبوط اثاثہ کے معیار اور منافع کو برقرار رکھنے کے لیے آپریشنز میں ایک قدامت پسندانہ انداز اپنایا ہے۔ مالی سال 24 میں بنیادی منافع میں بہتری آئی اور کل محصولات مالی سال 23 میں PKR 178.53 ملین سے بڑھ کر FY24 میں PKR 201.65 ملین ہو گئے۔ سال کے دوران انتظامی اخراجات PKR 62.57 ملین تھے۔ پاک برونائی سے PKR 150 ملین قرض لینے سے پیدا ہونے والے مالی اخراجات بڑھ کر PKR 36.44 ملین ہو گئے، تاہم، شرح سود میں کمی کے منظر نامے کے مطابق کم ہونے کی توقع ہے۔

مضاربہ نے FY24 میں PKR 13.84 ملین کے IFRS-9 کے تحت پروویژننگ کی۔ پچھلے سال میں، تقریباً کے اضافی فوائد تھے۔ PKR 46 ملین جائیدادوں کی دوبارہ تشخیص پر غیر حقیقی فائدہ اور مشکوک وصولیوں کے خلاف پروویژننگ کے الٹ جانے سے پیدا ہوا۔ لہذا، ٹیکس کے بعد کل منافع گزشتہ سال کے مقابلے میں PKR 61.70 ملین پر FY24 میں کم تھا جو پچھلے سال کے PKR 98.55 ملین کے مقابلے میں پیدا ہوا تھا۔

مضاربہ نے FY24 میں PKR 13.84 ملین کے IFRS-9 کے تحت پروویژننگ کی۔ پچھلے سال میں، تقریباً کے اضافی فوائد تھے۔ PKR 46 ملین جائیدادوں کی دوبارہ تشخیص پر غیر حقیقی فائدہ اور مشکوک وصولیوں کے خلاف پروویژننگ کے الٹ جانے سے پیدا ہوا۔ لہذا، ٹیکس کے بعد کل منافع گزشتہ سال کے مقابلے میں PKR 61.70 ملین پر FY24 میں کم تھا جو پچھلے سال کے PKR 98.55 ملین کے مقابلے میں پیدا ہوا تھا۔

مزید، شرح سود میں کمی اور مضاربہ کی کم لیوریج پوزیشن کے پیش نظر ٹاپ لائن گروتھ پر اثر پڑے گا۔ انتظامیہ کو اثاثوں کے معیار کو برقرار رکھتے ہوئے حجم میں اضافے کی منصوبہ بندی کرنی ہوگی۔ پچھلے سالوں کے برعکس، مضاربہ کے پاس اب کاروباری ترقی اور منافع کا ایک ٹریک ریکارڈ قائم ہے جو اسے کاروبار کی ترقی کے لیے فنڈز اکٹھا کرنے کی مضبوط پوزیشن میں رکھتا ہے۔

مینجمنٹ کمپنی کے بورڈ آف ڈائریکٹرز میں پانچ ممبران شامل ہیں جن میں دو آزاد نان ایگزیکٹو ڈائریکٹرز اور ایک خاتون ڈائریکٹر شامل ہیں۔ بورڈ اپنے قانونی فرائض انجام دیتا ہے اور اس بات کو یقینی بنا کر اپنی ذمہ داریوں کو پورا کرتا ہے کہ مضاربہ کے پاس ایک قابل قیادت اور ایک موثر انتظامی انتظامی ٹیم ہے۔ بورڈ، سہ ماہی بنیادوں پر، کاروباری خطرات کا مجموعی جائزہ لیتا ہے تاکہ اس بات کو یقینی بنایا جا سکے کہ انتظامیہ کمپنی اور اس کے اسٹیک ہولڈرز کے اثاثوں، وسائل، ساکھ اور مفادات کے تحفظ کے لیے خطرے کی شناخت، رسک مینجمنٹ اور متعلقہ نظامی داخلی کنٹرول کا ایک درست نظام برقرار رکھے۔

بورڈ کی جانب سے، میں مضاربہ پر اعتماد کرنے کے لیے اپنے تمام صارفین، سرمایہ کاروں، ریگولیٹرز اور دیگر اسٹیک ہولڈرز کا شکریہ ادا کرتا ہوں۔

## DIRECTORS' REPORT

The Board of Directors of Awwal Modaraba Management Limited, the management company of **First Prudential Modaraba**, is pleased to present the Directors' Report together with Audited Financial Statements of First Prudential Modaraba for the year ended 30 June 2024.

### Economic Review & Outlook

Pakistan's economy has shown signs of recovery in FY24 following a contraction in FY23. Notable indicators include robust agriculture growth, a decrease in inflationary pressure, stability in exchange rate, and an improved current account balance.

The government was able to successfully secure \$3 billion Stand-By Arrangement ("SBA") program with the International Monetary Fund ("IMF") which paved the way for a USD 7.0 billion Extended Fund Facility ("EFF") Arrangement. The staff-level agreement was reached in July and Executive Board meeting is scheduled on September 25 for the EFF. The program aims to support economic reforms to ensure stability. Supported by economic stability and increased investor confidence, the Pakistani Rupee has maintained stability during the year with exchange rate at PKR 279.75/USD as of August 31, 2024.

Pakistan GDP recovered in FY24 with a growth rate of 2.4%, driven by a significant surge in agricultural production of 6.25%. This robust agriculture growth offsets the weaker growth in industrial activity, which increased by 1.21% and the service sector which also grew by 1.21%.

Fiscal Year 2024 average inflation clocked-in at 23.9% compared to 29.0% in the preceding fiscal year. However, it fell to 12.6% YoY in June 2024, as compared to 29.7% YoY in December 2023. In response to improved inflation conditions and a decrease in core inflation pressures, we have seen cumulative rate cuts amounting to 450 bps by the State Bank of Pakistan ("SBP") since June 2024 to September 2024 with Policy Rate standing at 17.5% now. The Federal Reserve has also lowered interest rates by 50 basis points in first cut since 2020.

The Pakistan Stock Exchange (PSX) depicted strong performance during the period, with the benchmark KSE-100 rising by 25.6% during the half year ended June 2024, closing at 78,445 points. This was largely driven by improving fundamentals and influx of liquidity from both domestic and international investors.

Global rating agency, Moody's, upgraded Pakistan's local and foreign currency issuer and senior unsecured debt ratings to Caa2 from Caa3 in August 2024 with Positive Outlook. The agency said its decision to upgrade was due to Pakistan's improving macroeconomic conditions and moderately better government liquidity and external positions, from very weak levels.

### Strategic Direction of the Modaraba

In September 2023, the Board of Directors of Pak Brunei Investment Company Ltd. ("Pak Brunei") decided to proceed with divestment of its total interest in AMML. After seeking expression of interest and extensive due diligence process, appropriate buyer has been selected to proceed with the transaction. Accordingly, Pak Brunei entered into a Share Purchase Agreement ("SPA") in April 2024 for divestment of 100% of its shareholding in AMML subject to the approval of the SECP and other necessary approvals.

On September 19, 2024, Registrar Modaraba, SECP granted approval regarding the transfer of 100% shareholding of AMML from Pak Brunei Investment Company to Wasl Investment Finance Limited. The shares of AMML, along with the management rights of the Modaraba, will be transferred to WASL after completion of applicable corporate formalities. In light of this decision, the modaraba has followed a conservative approach in operations to maintain robust asset quality and profitability.

## Financial Snapshot

Total revenues increased from PKR 178.53 million in FY23 to PKR 201.65 million in FY24. Administration expenses were contained at PKR 62.57 million during the year while financial expenses related to PKR 150 million borrowing from PBICL increased to PKR 36.44 million.

However, profit before management fees and taxes was lower at PKR 80.88 million in FY24 compared to PKR 109.1 million in FY23. FPRM incurred provisioning under IFRS-9 of PKR 13.84 million in FY24. In the previous year, non-core profits of approx. PKR 46 million was recorded arising from unrealized gain on revaluation of properties and reversal of provisioning against doubtful receivables. Total profit after taxation amounted to PKR 61.70 million in FY24 arising from core profitability compared to PKR 98.55 million in the previous year.

With interest rates declining in FY2025, the management needs to increase the volume of business while maintaining asset quality to maintain profitability levels. The modaraba has established a sound track record of profitability and maintaining asset quality since transfer of management rights to AMML which will support effort to increase leverage to build volumes.

## ڈائریکٹرز کی رپورٹ

فرسٹ پروڈینشل مودریہ کی انتظامی کمپنی اوول مودریہ مینجمنٹ لمیٹڈ کے بورڈ آف ڈائریکٹرز 30 جون 2024 کو ختم ہونے والے سال کے لیے فرسٹ پروڈینشل مودریہ کے آڈٹ شدہ مالیاتی بیانات کے ساتھ ڈائریکٹرز کی رپورٹ پیش کرتے ہوئے خوشی محسوس کر رہے ہیں۔

## اقتصادی جائزہ اور آؤٹ لک

پاکستان کی معیشت نے مالی سال 23 میں سکڑاؤ کے بعد مالی سال 24 میں بحالی کے آثار دکھائے ہیں۔ قابل ذکر اشاریوں میں مضبوط زرعی ترقی، افراط زر کے دباؤ میں کمی، شرح مبادلہ میں استحکام، اور کرنٹ اکاؤنٹ بیلنس میں بہتری شامل ہیں۔

حکومت بین الاقوامی مالیاتی فنڈ ("IMF") کے ساتھ \$3 بلین اسٹینڈ بائی ارینجمنٹ ("SBA") پروگرام کو کامیابی کے ساتھ محفوظ کرنے میں کامیاب رہی جس نے USD 7.0 بلین توسیعی فنڈ سہولت ("EFF") کے انتظامات کی راہ ہموار کی۔ عملے کی سطح کا معاہدہ جولائی میں طے پایا تھا اور ای ایف ایف کے لیے ایگزیکٹو بورڈ کا اجلاس 25 ستمبر کو ہونا ہے۔ اس پروگرام کا مقصد استحکام کو یقینی بنانے کے لیے اقتصادی اصلاحات کی حمایت کرنا ہے۔ معاشی استحکام اور سرمایہ کاروں کے بڑھتے ہوئے اعتماد کی مدد سے، پاکستانی روپے نے 31 اگست 2024 تک USD/279.75 PKR کی شرح مبادلہ کے ساتھ سال کے دوران استحکام برقرار رکھا ہے۔

پاکستان کی جی ڈی پی مالی سال 24 میں 2.4 فیصد کی شرح نمو کے ساتھ بحال ہوئی، جس کی وجہ زرعی پیداوار میں 6.25 فیصد نمایاں اضافہ ہے۔ یہ مضبوط زرعی ترقی صنعتی سرگرمیوں کی کمزور ترقی کو پورا کرتی ہے، جس میں 1.21 فیصد اضافہ ہوا اور سروس سیکٹر جس میں بھی 1.21 فیصد اضافہ ہوا۔

مالی سال 2024 میں اوسط افراط زر گزشتہ مالی سال کے 29.0 فیصد کے مقابلے میں 23.9 فیصد پر پہنچ گیا۔ تاہم، یہ جون 2024 میں %12.6 YoY تک گر گیا، جو دسمبر 2023 میں %29.7 YoY کے مقابلے میں تھا۔ مہنگائی کے بہتر حالات اور بنیادی افراط زر کے دباؤ میں کمی کے جواب میں، ہم نے اسٹیٹ بینک کی طرف سے مجموعی شرح میں 450 bps کی کمی دیکھی ہے۔ پاکستان کا ("SBP") جون 2024 سے ستمبر 2024 تک پالیسی ریٹ کے ساتھ اب %17.5 ہے۔ فیڈرل ریزرو نے بھی 2020 کے بعد پہلی کٹوتی میں شرح سود میں 50 بیسیس پوائنٹس کی کمی کی ہے۔

پاکستان اسٹاک ایکسچینج (PSX) نے اس عرصے کے دوران مضبوط کارکردگی کو ظاہر کیا، بینچ مارک KSE-100 جون 2024 کو ختم ہونے والی ششماہی کے دوران 25.6 فیصد اضافے کے ساتھ 78,445 پوائنٹس پر بند ہوا۔ یہ بنیادی طور پر ملکی اور بین الاقوامی سرمایہ کاروں کی طرف سے بنیادی اصولوں اور لیکویڈیٹی کی آمد میں بہتری کے ذریعے کارفرما تھا۔

عالمی ریٹنگ ایجنسی، موڈیز نے اگست 2024 میں مثبت آؤٹ لک کے ساتھ پاکستان کے مقامی اور غیر ملکی کرنسی جاری کرنے والے اور سینئر غیر محفوظ قرضوں کی درجہ بندی کو Caa3 سے Caa2 میں اپ گریڈ کیا۔ ایجنسی نے کہا کہ اس کی اپ گریڈیشن کا فیصلہ پاکستان کے بہتر ہونے ہوئے معاشی حالات اور معتدل طور پر بہتر حکومتی لیکویڈیٹی اور بیرونی پوزیشنوں کی وجہ سے ہے، جو کہ انتہائی کمزور سطح سے ہے۔

## مضارہ کی اسٹریٹجک سمت

ستمبر 2023 میں، پاک برونائی انویسٹمنٹ کمپنی لمیٹڈ ("پاک برونائی") کے بورڈ آف ڈائریکٹرز نے AMML میں اپنی کل دلچسپی کی ذیلی کاروباری سرمایہ کاری کو فروخت کرنے کے لیے آگے بڑھنے کا فیصلہ کیا۔ دلچسپی کے اظہار اور وسیع مستعدی کے عمل کی تلاش کے بعد، لین دین کو آگے بڑھانے کے لیے مناسب خریدار کا انتخاب کیا گیا ہے۔ اس کے مطابق، پاک برونائی نے اپریل 2024 میں SECP کی منظوری اور دیگر ضروری منظوریوں سے مشروط AMML میں اپنے 100% شیئر ہولڈنگ کی تقسیم کے لیے شیئر پریچیز ایگریمنٹ ("SPA") کیا۔

رجسٹرار مضاربہ، ایس ای سی پی نے 19 ستمبر 2024 کو پاک برونائی انویسٹمنٹ کمپنی سے AMML کی 100% شیئر ہولڈنگ وصل انویسٹمنٹ فنانس لمیٹڈ کو منتقل کرنے کی منظوری دی۔  
ایم ایم ایل کے حصص، مضاربہ کے انتظامی حقوق کے ساتھ، ضروری کارپوریٹ اقدامات کی تکمیل کے بعد WASL کو منتقل کر دیے جائیں گے۔

### مالی سنیپ شاٹ

کل محصولات مالی سال 23 میں PKR 178.53 ملین سے بڑھ کر FY24 میں PKR 201.65 ملین ہو گئے۔ سال کے دوران انتظامی اخراجات PKR 62.57 ملین تھے جبکہ PBICL سے PKR 150 ملین کے قرضے سے متعلق مالی اخراجات بڑھ کر PKR 36.44 ملین ہو گئے۔

تاہم، انتظامی فیسوں اور ٹیکسوں سے پہلے کا منافع مالی سال 23 میں PKR 109.1 ملین کے مقابلے FY24 میں PKR 80.88 ملین پر کم تھا۔ FPRM نے FY24 میں PKR 13.84 ملین کے IFRS-9 کے تحت پروویژننگ کی۔ پچھلے سال میں، تقریباً کے غیر بنیادی منافع۔ PKR 46 ملین ریکارڈ کیا گیا جو جائیدادوں کی دوبارہ تشخیص پر غیر حقیقی فائدہ اور مشکوک وصولیوں کے خلاف پروویژننگ کو تبدیل کرنے سے پیدا ہوا۔ مالی سال 24 میں ٹیکس کے بعد کل منافع PKR 61.70 ملین تھا جو کہ بنیادی منافع سے پیدا ہوا تھا جو پچھلے سال کے PKR 98.55 ملین تھا۔

مالی سال 2025 میں شرح سود میں کمی کے ساتھ، انتظامیہ کو منافع کی سطح کو برقرار رکھنے کے لیے اثاثوں کے معیار کو برقرار رکھتے ہوئے کاروبار کا حجم بڑھانے کی ضرورت ہے۔ مضاربہ نے AMML کو انتظامی حقوق کی منتقلی کے بعد منافع اور اثاثہ کے معیار کو برقرار رکھنے کا ایک اچھا ٹریک ریکارڈ قائم کیا ہے جو حجم کو بڑھانے کے لیے فائدہ اٹھانے کی کوششوں میں مدد فراہم کرے گا۔

#### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of Management and Board of Directors of the Modaraba Company for the Financial Statements**

Management of the modaraba is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management of the Modaraba Management Company is responsible for assessing the Modaraba's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Modaraba or to cease operations, or has no realistic alternative but to do so.

Board of directors of the Modaraba Management Company are responsible for overseeing the Modaraba's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurances about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Modaraba's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management of the Modaraba Company;
- Conclude on the appropriateness of the management of the Modaraba Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Modaraba's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Modaraba to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors of the Modaraba Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors of the Modaraba Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors of the Modaraba Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) Proper books of account have been kept by the Modaraba Company in respect of the Modaraba as required by Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980) and are in agreement with the books of account;
- c) business conducted, investments made, expenditure incurred and guarantees extended during the year by the Modaraba were in accordance with the objects, terms and conditions of the Modaraba; and

The Company adopted the narrow-scope amendments to the International Accounting Standard (IAS) 1, Presentation of Financial Statements which have been effective for annual reporting periods beginning on or after 1 January 2023. #### **4 MATERIAL ACCOUNTING POLICY INFORMATION**

The material accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied in all periods except policy mentioned in note 4.5.1 below. In addition Modaraba adopted Disclosure of Accounting Policies (Amendment to IAS 1 and IFRS Practice Statement 2) from January 01, 2023. The amendments requires the disclosure of 'material', rather than 'significant', accounting policies. Although amendment did not result in any changes to the accounting policies themselves.

##### **4.1 Property and equipment**

###### **a) Ijarah and depreciation**

Ijarah assets are stated at cost less accumulated depreciation and impairment loss (if any). Depreciation is charged to income applying the straight line method whereby the cost of an asset, less its residual value, is written off over its lease period. In respect of additions and disposals during the year, depreciation is charged proportionately to the period of ijarah lease.

Depreciation is charged to statement of profit or loss applying the straight line method whereby the depreciable amount of an asset is depreciated over its estimated useful life. Depreciation on additions is charged from the month in which the asset is available for use and continued to be depreciated until it is derecognised, that is, up to the month preceding the month of disposal. An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use.

###### **b) In own use and depreciation**

Operating assets are stated at cost less accumulated depreciation and impairment loss (if any). Depreciation is charged to the statement of profit or loss applying the straight-line method in accordance with the rates specified in note 5 to these financial statements. In respect of additions and disposal during the year, depreciation is charged proportionately to the period of use.

Gains and losses on disposals are determined by comparing the sale proceeds with the carrying amounts. These are recorded in the statement of profit or loss in the period in which they arise.

Assets' residual values, depreciation method and their useful lives are reviewed and adjusted, if appropriate, at each reporting date.

Maintenance and normal repairs are charged to income as and when incurred.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

#### 4.4.3 Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial assets:

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Financial assets at FVTPL</b>          | These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognized in the statement of profit or loss.                                                                                                                                                                                                                                             |
| <b>Financial assets at amortized cost</b> | These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss.                                                                                                                                                |
| <b>Debt investments at FVTOCI</b>         | These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in income statement. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss. |
| <b>Equity investments at FVTOCI</b>       | These assets are subsequently measured at fair value. Dividends are recognized as income in income statement unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to the statement of profit or loss.                                                                                   |

Surplus / (Deficit) on re-measurement of FVTOCI investment is presented separately from equity in order to comply with the Modaraba Regulations, 2021.

#### 4.4.4 Regular way contracts

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention such as (T+2) purchases and sales are recognized at the trade date. Trade date is the date on which the Modaraba commits to purchase or sell the assets.

#### 4.4.5 Financial liabilities

Financial liabilities are initially recognized on trade date i.e. date on which the Modaraba becomes party to the respective contractual provisions. Financial liabilities include Short Term Finance and trade and other payables. The Modaraba derecognizes the financial liabilities when contractual obligations are discharged or cancelled or expire.

Financial liability other than at fair value through profit or loss are initially measured at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these liabilities are measured at amortized cost using effective interest rate method.

## **4.5 Impairment**

### **4.5.1 Change in accounting policy - Impairment of Financial Assets**

The Securities and Exchange Commission of Pakistan (SECP) vide S.R.O 1827 (I)/2022 dated September 29, 2022 has made the applicability of International Financial Reporting Standard (IFRS) 9 - 'Financial Instruments' for Non-Banking Finance Companies and Modarabas effective for the reporting period/year on or after June 30, 2024. The said standard has superseded International Accounting Standard (IAS) 39 - 'Financial Instruments: Recognition and Measurement'. During the year, the Modaraba has adopted IFRS 9, 'Financial Instruments' and accordingly applied the recognition and measurement criteria including the Expected Loss Model.

IFRS 9 requires the Modaraba to record an allowance for ECLs for all loans and other debt financial assets not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Modaraba expects to receive. The shortfall is then discounted at an approximation to the asset's original effective profit rate.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Modaraba considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Modaraba may also consider a financial asset to be in default when the internal or external information indicates that Modaraba is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Modaraba.

#### **Impact of initial application of IFRS 9**

The Modaraba has adopted the requirements of ECL model as given in IFRS 9 using the modified retrospective approach. A lifetime ECL is recorded on Ijara Financing and Diminishing Musharakah Financing in which there have been significant increase in credit risk from the date of initial recognition and which are credit impaired as on the reporting date.

Upon adoption of ECL model under IFRS 9, the Modaraba while recognizing provisioning for impaired assets has considered the amount which is higher of :

- the provisioning required under the Modaraba Regulation, 2021; and
- the provisioning required under IFRS 9 using the Expected Credit Loss (ECL) model.

Furthermore, the management has made an assessment of impairment under expected credit loss model complying with the requirement of IFRS 9 for financial assets as at June 30, 2024 and concluded that impact is not material to the financial statements. Accordingly, no impact has been accounted for in the opening retained earnings of Modaraba.

#### **4.5.2 Non-financial assets**

The Modaraba assesses at the end of each reporting period whether there is any indication that assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in profit or loss.

The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Where impairment loss for asset subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of initial cost of the asset. Reversal of impairment loss is recognized as income in the statement of profit or loss.

#### **4.5.3 Offsetting of financial assets and financial liabilities**

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Modaraba has a legally enforceable right to offset and the Modaraba intends to either settle on a net basis, or to realize the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also offset and the net amount is reported in the financial statements only when permitted by the accounting and reporting standards as applicable in Pakistan.

#### **4.6 Staff retirement benefits**

##### **Defined contribution plan**

The Modaraba operates a defined contribution provident fund for all employees who opt for deductions. Equal monthly contributions are made both by the Modaraba and the employees to the fund at the rate of 10% of basic salary.

#### **4.7 Accrued and other liabilities**

Accrued expense and other payables are initially recognised at cost which is the fair value of the consideration to be paid in the future for goods and services received whether or not billed to the Modaraba and is subsequently measured at amortised cost.

#### **4.8 Provisions**

Provisions are recognized when the Modaraba has a present, legal or constructive obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

#### **4.9 Contingent liabilities**

A contingent liability is disclosed when the Modaraba has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Modaraba; or the Modaraba has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

#### **4.10 Revenue recognition**

##### **4.10.1 Ijarah rentals**

Income from ijarah is recognized as and when lease rentals become due on a systematic basis over the lease and ijarah period. Documentation charges, front end fees and other ijarah related income are taken to the statement of profit or loss, when they are realized, and are included in other income.

##### **4.10.2 Modaraba, Morabaha and musharaka transactions**

Profit on modaraba finance is recognised on the basis of pre-agreed profit / loss sharing ratio where as actual gain / loss on transaction is computed upon termination / completion of transaction.

Profit from musharaka transactions is recognized on the basis of pro rata accrual of the profit estimated for the transaction over the period.

Profit from morabaha finance is accounted for on culmination of morabaha transaction. However, the profit on that portion of morabaha finance not due for payment is deferred by accounting for "Deferred Morabaha Income" with a corresponding credit to "Unearned Morabaha Income" which is recorded as a liability. The same is then recognized on a time proportion basis.

##### **4.10.3 Diminishing musharaka**

Profit on diminishing musharaka is recognized as and when profits become due on a systematic basis over the term of diminishing musharaka period.

##### **4.10.4 Rental income**

Rental income arising from investment properties is accounted for on accrual basis as per the agreement.

#### **4.10.5 Dividend income**

Dividend is recognized as income when the right of receipt is established.

#### **4.10.6 Return on short term finances**

Return on short term finance is accrued on a time basis, by reference to the principal outstanding and at the effective profit rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

#### **4.10.7 Other income**

Other income is recognized on receipt basis.

#### **4.10.8 Income from Shariah non-compliant avenues**

Income from Shariah non-compliant avenues is not recognized in the statement of profit or loss and is classified as charity payable.

#### **4.10.9 Mark-up income**

Mark-up / return on deposits / investments is recognized on accrual basis using the effective profit rate method.

### **4.11 Taxation**

#### **Current**

Provision for current taxation is based on taxable income for the year at the current rates of taxation after taking into account applicable tax credits, rebates and exemptions available, if any, and taxes paid under the final tax regime. The charge for the current year tax also includes adjustments where necessary, relating to prior years which arise from assessments framed / finalised during the year.

#### **Deferred**

Deferred tax is accounted for using the Balance Sheet liability method on all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profit will be available in future years to utilize deductible temporary differences, unused tax losses and tax credits. Deferred tax is not recognized on temporary differences arising from the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

The carrying amount of deferred tax asset is reviewed at each statement of financial position date and reduced to the extent that is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax is calculated based on tax rates that have been enacted or substantively enacted up to the statement of financial position date and are expected to apply to the periods when the differences reverse. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

The Modaraba takes into account decisions taken by the taxation authorities. For instance where the Modaraba's view differs from the income tax department at the assessment stage and where the Modaraba considers that its view on items of material nature is in accordance with law, the disputed amounts are shown as contingent liabilities.

#### **4.12 Foreign currencies translation**

Monetary assets and liabilities in foreign currencies are translated into Pakistan Rupees at the rates of exchange approximating to those prevalent on the reporting date. Foreign currency transactions are converted into Rupees at the rate of exchange prevailing on the date of transactions. Exchange gains and losses on translation are taken to income.

#### **4.13 Cash and cash equivalents**

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash in hand, with banks on current, savings and deposit accounts, as well as balance held with the State Bank of Pakistan (SBP).

#### **4.14 Profit distribution**

Profit distribution to the Modaraba's certificate holders is recognized as a liability in the financial statements of the year in which the distributions are approved by the Board of the Management Company.

#### **4.15 Earning's per certificate**

The Modaraba presents basic and diluted earnings per certificate data for its certificate holders. Basic earning per certificate is calculated by dividing the profit or loss attributable to certificate holders of the Modaraba by the weighted average number of certificates outstanding during the year. Diluted earnings per certificate is determined by adjusting profit or loss attributable to certificate holders and the weighted average number of certificates outstanding for the effects of all dilutive potential certificates, if any.

#### **4.16 Related party transactions**

Transactions and contracts with the related parties are based on the policy that all transactions between the Company and related parties are carried out at agreed terms as approved by the Board of Directors.

The Modaraba filed an application to SECP for relaxation of Regulation 7(7) of the Prudential Regulations for Modarabas for investing in an unlisted entity which was rejected. - 16.1 During 2016, KASB Modaraba (KASBM) & First Prudential Modaraba (FPRM) entered into a joint project for crushing of banola seed and sale of oil cake (Khal) in the market. M/s Pakistan Phutti International Limited (PPIL) was engaged as seller & service provider responsible for sale of agriculture produce. Subsequently, natural cyclical shortage in productivity of cotton crop affected the availability of the banola seed and therefore the project was prudently discontinued by the management to safeguard the interest of the Modaraba.

As per settlement agreement dated April 27, 2016, with PPIL advance for purchase of banola seed was converted into ijarah finance (secured) leaving a balance of Rs.46.012 million receivable against sale of agriculture produce. Receivable amount is secured against Registered Mortgage on Property of service provider. After continuous default of payment the management of Modaraba has filed recovery suits in the Banking Courts which is pending adjudication. The management and the legal counsel are optimistic on favorable outcome of the case. However, on prudent basis the management has fully provided the outstanding balance. The details of receivables are as under:

- 17.1 The employees balances are secured against Provident Fund (PF) balances of employees.

17.1.1 The doubtful amount of Rs.1.8 million was paid to an ex-managing director of the Modaraba without prior approval of the board of directors of previous Modaraba Management Company (Prudential Capital Management Limited) for the purchase of a motor vehicle. The Modaraba has initiated legal proceedings for the recovery of said amount from the ex-managing director.

17.2 The doubtful amount includes claim of Rs. 64.62 million receivable from a defaulted stock broker – Investec Securities Limited. Various proposals were initiated in past but none of them was materialized for settlement. In one of the proposal, the said broker has offered / transferred shares and certificates of following entities which were not acknowledged by the Management of the Modaraba, owing to the weak financial position of the entities and significance of the amount of claim. Accordingly, the management of the Modaraba has not accepted the shares / certificates as satisfaction of claim and same is not recorded in the books of account. Detail of shares / certificates offered / transferred is as under:

Since operations of PSL & PCML were suspended and keeping in view the remote chances of recovery, provision against the full amount has been recorded.

17.3 This amount includes Rs. 17.889 million paid as advance for purchase of securities from Prudential Securities Limited (PSL). Remaining amount of Rs. 0.54 million is blocked in CDC-sub account of the said broker against various shares.

Operations of PSL have been ceased by PSX and the Modaraba has filed a claim with the PSX for the whole amount. However on confirmed existence of event of default, the provision was made accordingly.

17.4 This represents an unauthorised amount debited to Modaraba's account by a scheduled commercial bank on behalf of a party considered to be a group Company. The Modaraba filed a suit for recovery under the Financial Institutions (Recovery of Finances) Ordinance, XLVI of 2001 which was decreed against the Modaraba only due to the reason that it was time-barred. The Modaraba Management Company is entitled to a remuneration for services rendered to the Modaraba under provisions of the Modaraba Companies and Modarabas (Floatation and Control) Ordinance, 1980 up to a maximum of 10% per annum of the net annual profits of the Modaraba.

**31 PROVISION FOR SERVICE SALES TAX ON MANAGEMENT COMPANY'S REMUNERATION**

The Sindh Revenue Board (SRB) has imposed Sindh Sales Tax (SST) on the Modaraba Management Company's remuneration with effect from 01 November 2011. However, certain modaraba management companies have approached the Honourable Sindh High Court (HSC) and Appellate Tribunal of SRB, challenging the levy of SST on management company's remuneration. The Modaraba Management Company has not received any demand notice from SRB for payment of SST on Management Company's remuneration and accordingly, based on legal advisor's opinion obtained by one of the Modaraba under common management, can neither file any petition challenging the levy of SST on Management Company's remuneration nor can join the proceedings of pending petition in the Court (HSC). As a matter of abundant caution the management is accruing SST on Management Company's remuneration and will discharge the liability on direction of the Court (HSC) based on outcome of the petition filed by other Modaraba Management Companies.

## 35 FINANCIAL RISK MANAGEMENT

The Modaraba's activities expose it to a variety of financial risks liquidity risk, credit risk and market risk (including currency risk, profit rate risk and other price risk). The Board of the Management Company has overall responsibility for the establishment and oversight of the Modaraba's risk management framework.

The Modaraba's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Modaraba's financial performance.

The Modaraba's principal financial liabilities comprise Ijara, short term finance and other liabilities. The Modaraba's principal financial assets comprise of ijarah rentals receivable, diminishing musharika finance and other finance and cash and bank balances that arrive directly from its operations. The Modaraba also holds investments classified as fair value through profit or loss, fair value through other comprehensive income and at amortised cost.

### 35.1 Liquidity risk management

Liquidity risk is the risk that the Modaraba will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Modaraba will be required to pay its liabilities earlier than expected or will face difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Modaraba's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stress conditions, without incurring unacceptable losses or risking damage to the Modaraba's reputation. The Modaraba holds total current assets of Rs. 512.151 million against its current liabilities of Rs. 247.823 million which lead to total surplus of Rs. 264.328 million.

The table below analyses the Modaraba's financial assets and liabilities into relevant maturity groupings to contractual maturity date. However, Modaraba has surplus funds to pay off its liabilities. The amounts in the table are the contractual undiscounted cash flows.

## 35.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Modaraba control credit risk by monitoring credit exposure, limiting transactions with specific counter parties and continually assessing the credit worthiness of counter parties.

The Modaraba is exposed to credit risk from its financing activities (diminishing musharaka finance, ijarah rental receivables), deposits with bank and financial institutions and other receivables.

The Modaraba has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. This information is supplied by independent rating agencies where available and, if not available, the Modaraba uses other publicly available financial information and its own trading records to rate its major customers. The Modaraba's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee.

The Modaraba follows two sets of guidelines. It has its own operating policy and the Board of the Management Company also adheres to the regulations issued by the SECP. The operating policy defines the extent of fund and non-fund based exposures with reference to a particular sector or group.

The Modaraba's maximum exposure to credit risk related to receivable at June 30, 2024 and June 30, 2023 is the carrying amounts of following financial assets.

### Concentration of Credit Risk

Concentration of credit risk arises when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other considerations. Concentration of credit risk indicates the relative sensitivity of the Modaraba's performance to developments affecting a particular industry.

The Modaraba manages concentration of credit risk exposure through diversification of portfolio of its customers to avoid undue concentration of risk with specific industry, sector, or group as follows:

| Sectors                       | 2024               |         | 2023               |        |

### 35.3 Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as profit rates, foreign exchange rates and other prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

#### 35.3.1 Profit rate risk

Profit rate risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes in the market profit rates. Majority of profit bearing financial instruments are reset within three to six months to prevailing KIBOR thereby limiting exposure in this respect.

### 35.3.2 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from profit rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Modaraba's investment in listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Modaraba manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Modaraba's senior management on a regular basis. The Modaraba's Investment Committee reviews and approves all equity investment decisions.

#### Sensitivity analysis

## 36 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair values of financial assets that are traded in active markets are based on quoted market prices. For all other financial instruments the Modaraba determine fair values using valuation techniques unless the fair value cannot be reliably measured.

For assets that are recognised in the financial statements at fair value on a recurring basis, the Modaraba recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

The table below shows the carrying amounts and fair values of a financial asset and financial liability including their fair value hierarchy for financial instruments measured at fair value. It does not include the fair value information of financial assets and financial liabilities not measured at fair value if the carrying amount is reasonable approximation of fair value.
