Economic Overview

The country's economy has started to show gradual improvement. Monthly Consumer Price Index (CPI) has stabilized during the year with YoY inflation hovering at 8.5% in March 2014. The positive economic indicators have improved the inflation outlook with a greater likelihood of average inflation remaining within single digits for FY-14. Large Scale Manufacturing (LSM) growth of 6.8% is stronger than previously anticipated, mainly supported by textiles, food processing and construction materials. This positive aggregate supply indicator bodes well for further containing inflation in future.

The foreign exchange reserves increased to approximately \$10.1 billion by end-March 2014 with the upward swing facilitated by the receipt of USD 1.5 billion grant. Consequently improvement in foreign exchange reserves position has further augmented business sentiments and resulted in 8.7% appreciation against US dollar since January 2014. While the subsequent incremental inflows from successful floatation of Euro-Bonds aggregating to USD 2 billion in the international markets are a much needed boost to the growing reserves, substantial and consistent accumulation is required to maintain adequate reserve levels going forward.

With an improving reserves and fiscal position the Government's reliance on financing budgetary requirements through domestic channels diminished significantly as Broad Money (M2) growth was restricted to 5.1% (Jul-13 to Mar-14) compared to 15.1% in the corresponding period last year. The constrained Broad Money supply also translated into sluggish growth in banking industry deposits with just over 0.5% 000 increase in deposits compared to 1.4% in corresponding period last year.

The banking industry advances are gradually responding to the improving credit environment with 0.7% QoQ growth over Dec-13 compared to 0.4% growth in the corresponding period last year. In view of the meager growth in credit, the banking sectors reliance on diverting surplus liquidity towards sovereign debt instruments is clearly visible with an investment to deposit ratio hovering around 59% at end-March 2014. The declining inflation together with rising confidence in market sentiments enabled the government to meet incremental borrowing needs from the long-term Pakistan Investment Bonds (PIBs) rather than short term Treasury Bills. However, the total fiscal borrowing from SBP remains at a higher level. The government's efforts towards materialization of foreign inflows are expected to not only assist in accumulation of foreign exchange reserves but also in keeping monetary aggregates at sustainable levels.

While inflationary pressure eased during Q1 2014, State Bank of Pakistan kept policy rate unchanged at 10%. Going forward, with the positive inflationary outlook, SBP may make policy rate cuts within short to medium term, resulting in further squeezing of the banking sector spreads. In order to curtail the drag on Net Interest Margins, continuous focus on Non-Interest Income remains a high priority for the banking sector.

Financial Review

Despite the gradual improvement in economic indicators, the overall business environment for the banking sector remained challenging during the first quarter 2014. Your Bank continued to follow its strategic impetus towards maintaining stable profitability trend through continuous focus on an efficient risk management framework enabling continuous improvement in quality of Bank's assets portfolio, mobilizing cost effective deposits and enhancing operational efficiencies through automation and rationalization of costs, while increasing its foot print of Branches.

Profit Before Tax of Your Bank increased by 14.7% to reach Rs. 4,550 million during the first quarter ended March 31, 2014 as compared to Rs. 3,966 million in the corresponding period of previous year. Profit after Tax rose by 14.6% to Rs. 3,240 million compared to Rs. 2,826 million in the corresponding period of previous year. Resultantly, the EPS of Your Bank increased to Rs. 2.83 during the first quarter ended March 31, 2014 compared to Rs. 2.47 in the corresponding period of previous year. The ROE and ROA of the Bank remained stable at 23.8% and 1.8% during the first quarter ended March 31, 2014 compared to 25.4% and 1.8% in the corresponding period last year.

Net Mark-up/Interest Income during the first quarter ended March 31, 2014 witnessed an increase of 15% or Rs. 751 million to reach Rs. 5,759 million compared to Rs. 5,008 million in corresponding period of previous year attributable mainly to the growth in Interest earning assets. This growth was achieved despite absorption of the impact of regulatory changes in PLS Saving deposits' profit payment methodology and rate capping during the period. There was a net provision reversal of Rs. 37 million during the first quarter ended March 31, 2014 compared to a net provision reversal of Rs. 43 million in the corresponding period of previous year.

Non-Markup/Interest Income during the first quarter ended March 31, 2014 increased by Rs. 274 million or 10.9% as compared to the corresponding period of previous year. The increase was attributed to fee income, capital gain and dividend income which rose by Rs. 117 million, Rs. 90 million and Rs. 161 million respectively after offsetting the negative impact of FX dealing activities, owing to temporary adverse movement in forward rates, which subsequently stabilized, on the Ouarter end under review.

In view of the expanding network of the Bank, which increased from 875 branches in March 2013 to 952 branches in March 2014 together with QoQ inflationary impact, administrative expenses increased by 10.6% to reach Rs. 3,858 million for the quarter ended March 31, 2014 as compared to Rs. 3,487 million in corresponding period of previous year.

Deposits of Your Bank remained above December 31, 2013 level and increased to Rs. 610,621 million as at March 31, 2014. Net Investments stood at Rs. 339,691 million as at March 31, 2014 from Rs. 363,379 million as at December 31, 2013. While the Net Advances remained at

Directors' Review

Rs. 265.569 million, slightly lower from December 31, 2013 level of Rs. 267.001 million, Your Bank has adequately provided for the Non-Performing Advances with provision coverage remaining high at 92.4% as at March 31, 2014. No FSV benefit has been taken while determining the provision against Non-Performing Advances as allowed under BSD Circular No. 02 of 2010 dated June 03, 2010. Total assets of Your Bank stood at Rs, 750,199 million as at March 31, 2014 while the Equity of the Bank as at March 31, 2014 stood at Rs. 67,785 million.

Future Outlook

The optimistic economic outlook for inflation, higher than expected growth in Large Scale Manufacturing, anticipated ease on foreign exchange reserves owing to upcoming 3G/4G auction and expected release of the fourth tranche of IMF's Extended Fund Facility (EFF) to the country is gradually changing the market sentiments and overall business environment. However, sustained curtailment of fiscal deficit, increasing the tax base of the country, materialization of expected foreign exchange inflows, rising population, addressing the energy crisis and law and order situation remains critical challenges in the medium to short term towards expansion and economic stability of the country. According to the recently released IMF World Economic Outlook, Pakistan's GDP growth is expected to fall to 3.1% in FY-2014 from 3.6% in 2013, before steadily growing back to the respectable 5% mark by 2018, provided the security and energy concerns are addressed dynamically.

With positive inflation outlook going forward, SBP may initiate downward adjustments in the benchmark policy rates. Together with fixed minimum rate for remunerative deposits, the banking industry spreads and consequently, the profitability may be adversely impacted going forward. Your Bank is actively responding to evolving market dynamics by maintaining the high asset quality while striving towards continuously focusing on mobilizing deposits while optimizing cost of funds. Moreover, concerted efforts are continuously being made to diversify revenue streams in the wake of receding spreads through enhanced focus on fee based income avenues in addition to introducing Islamic banking operations going forward. In addition, Your Bank would continue to utilize technological advancements in offering innovative products and solutions to its valued customers. The above initiatives are expected to yield sustainable growth in our profitability without compromising the balance sheet strength.

Entity & TFC Ratings

Allied Bank has long-term and short-term entity ratings of AA+(Double A plus) and A1+ (A One Plus), respectively, assigned by The Pakistan Credit Rating Agency (PACRA). The ratings represent very high credit quality. The rating of TFC Issue of Rs. 3,000 million (Issue Date: August 28, 2009) by PACRA is AA (Double A). The ratings denote very low expectation of credit risk emanating from a very strong capacity for timely payment of financial commitments. Meanwhile, the rating of Bank's earlier TFC Issue of Rs. 2,500 million (Issue Date: December 06, 2006) is also AA (Double A) assigned by JCR-VIS Credit Rating Company (JCR-VIS).

Corporate Governance Rating

Your Bank has a Corporate Governance rating of CGR- 9 assigned by JCR-VIS, which denotes a high level of corporate governance.

Acknowledgement

We take this opportunity to thank our valued customers for their patronage, to our employees for their continued commitment, our shareholders for their trust and confidence and State Bank of Pakistan and other regulatory bodies for their continued guidance.

For and on behalf of the Board.

- 12.9.1 There is no change in the status of contingencies, set out in note 22.9 to the unconsolidated financial statements of the Bank for the year ended December 31, 2013, except for the contingency as mentioned below:
- 12.9.2 The income tax assessments of the Bank have been finalized up to and including tax year 2013 for local and Azad Kashmir operations. While finalizing income tax assessments up to tax year 2013, income tax authorities made certain add backs with aggregate tax impact of Rs. 18,517 Million (2013: Rs. 15,702 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavourable decisions. Pending finalization of appeals/references no provision has been made by the Bank on aggregate sum of Rs. 18,517 million (2013: Rs. 15,702 million). The management is confident that the outcome of these appeals/references will be in favour of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161 / 205 of Income Tax Ordinance, 2001 for tax year 2005, 2006 and tax year 2008 to 2012 and created an arbitrary demand of Rs. 1,081 million (2013: Rs. 1,081 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favour of the Bank; therefore, no provision has been made against the said demand of Rs. 1,081 million (2013: Rs. 1,081 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 for the year 2008 to 2011 thereby creating arbitrary aggregate demand of Rs. 340 million (2013: Rs. 340 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 340 million (2013: Rs. 340 million).

12.10 Other Contingencies

- 12.10.1 There is no change in the status of contingencies, set out in note 22.10 to the consolidated financial statements of the Bank for the year ended December 31, 2013, except for the contingencies as mentioned below:
- 12.10.2 The income tax assessments of the Bank have been finalized up to and including tax year 2013 for local and Azad Kashmir operations. While finalizing income tax assessments up to tax year 2013, income tax authorities made certain add backs with aggregate tax impact of Rs. 18,517 Million (2013: Rs. 15,702 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavourable decisions. Pending finalization of appeals/references no provision has been made by the Bank on aggregate sum of Rs. 18,517 million (2013: Rs. 15,702 million). The management is confident that the outcome of these appeals/references will be in favour of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161 / 205 of Income Tax Ordinance, 2001 for tax year 2005, 2006 and tax year 2008 to 2012 and created an arbitrary demand of Rs. 1,081 million (2013: Rs. 1,081 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favour of the Bank; therefore, no provision has been made against the said demand of Rs. 1,081 million (2013: Rs. 1,081 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 for the year 2008 to 2011 thereby creating arbitrary aggregate demand of Rs. 340 million (2013: Rs. 340 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 340 million (2013: Rs. 340 million).

12.10.3 The Finance Act 2008 introduced an amendment to the Workers' Welfare Fund (WWF) Ordinance, 1971, through which Collective Investment Schemes (CISs)/Mutual Funds whose income exceeded Rs. 0.5 million in a tax year became liable to pay WWF. A writ petition has been filed in Sindh High Court to challenge the applicability of WWF on the CISs / Mutual Funds. ABL AMC has undertaken to bear an amount of Rs. 27.38 million (2013: Rs. 27.38 million), if applicable, in respect of CISs managed by it. However, ABL AMC has made

no provision for the aforementioned Rs. 27.38 million in its financial statements, being confident that the matter will be decided favourably in due course based on Mutual Fund Association of Pakistan (MUFAP's) Legal Council's opinion dated December 12, 2011.
