### **Directors' Review**

### For the half year ended December 31, 2015

The Board of Directors of Standard Chartered Services of Pakistan (Private) Limited, the management company of Standard Chartered Modaraba is pleased to present the unaudited accounts for the six months period ended December 31, 2015.

### 1. Economic Outlook

With improved macroeconomic indicators and market sentiments, Pakistan's GDP in FY 15 posted a 4.2% growth vs. 4.1% in FY14. Looking ahead, growth is expected to increase to 4.4% in FY16; and rise gradually over the medium-term to over 5% as infrastructure and energy projects, part of the China-Pakistan Economic Corridor, pick up pace.

Consumer-price inflation declined to an average of 4.5% in FY15 from 8.6% in the previous year, due to the decline in global oil and domestic food prices. The macroeconomic situation saw improvement in consumer and investor's confidence with increase in remittances, successful conclusion of the 10th IMF review and a record all time high FX reserves of over USD 20bn by December 2015. This has given room to central bank to ease monetary policy – cutting rates by 400 bps since November 2014, with the policy rate at 6% by end-December 2015. Lower interest rates have supported private credit off-take, for both corporate and consumer loans; in particular, fixed investment and long-term loans increased by nearly 19% y/y by December 2015. Meanwhile, the decline in global oil prices helped narrow the current account deficit to 0.9% of GDP in H1-FY16 compared to 1.8% for the corresponding period last year. The country also issued a USD 500 million Euro bond in September 2015.
