MARKET REVIEW

The KSE-100 performance can be analyzed in two halves; 1HFY15 was volatile due to long march and sit-in by PTI/PAT which began in Aug'14 and ended in Mid Dec'14 (post terrorist attack on army public school). During this period of political uncertainty the market witnessed FIPI outflow of USD ~50mn. In the 2HFY15, after reaching highs of 35055 points, it posted ~6,128 points correction on the back of continued foreign selling followed by massive selling by local institutions in commercial banks on the back of a cut in benchmark discount rate along with introduction of target rate. However, the market gained momentum in 4qFY15 following the inking of ~USD46bn MoUs signed under the frame work of CPEC. In this regard, the benchmark KSE-100 Index closed Fy15 at 34,398 points, a gain of 4,746 points or up 16.01% Y/Y. The upward movement was further supported by 1) Improved Law & Order, 2) Political stability as a result of the formation of a Judicial Commission to probe the 2013 election results, 3) Softening of CPI monthly stats 4) Valuations improved as benchmark discount rate was lowered to 7% (300bps cut during FY15), 5) BoP support through IMF program (3-year USD 6.64bn under the EFF) which also paved the way for other bilateral/multilateral support and much needed structural reforms, 6) Sharp uptick in FX reserves which closed the year at USD ~18.5bn up from USD ~14bn as at Jun'14, with contribution from issuance of Sukuk (USD 1bn), privatization proceeds (USD 783mn - ABL & HBL) and disbursement of IMF tranches (USD 1.5bn in Fy15). Average daily volumes (ADV) for the KSE All share index in Fy15 improved to 219 million shares, a 2% increase from the 214 million shares (ADV) traded in Fy14.

Foreign portfolio investment in Pakistan clocked in net inflows of USD 38.54 million in Fy15 compared to net

inflows of USD 256.17 million in FY14. Cumulative gross trades (buy) by foreigners amounted to USD 2,758 million in FY15, up 30.68% Y/Y compared with gross trades (buy) in FY14. In the last quarter alone (4qFY15), USD 56.57 million (net basis) was deployed into the equity markets of Pakistan, where as a net FIPI outflow of USD 131 million (net basis) was witnessed due to a foreign selling in 3qFY15. Besides the increase in Pakistan's weight within the MSCI FM space, optimistic outlook on the external account was aided by a successful initiation of GoP's privatization drive and the launch of a critical military operation in tribal regions of the country boosting investor confidence further.

The Pakistani equity bourse continued to outperform the main global composites by a wide margin in FY15. In this regard, MSCI world, MSCI Emerging Markets, and MSCI Frontier Markets have underperformed by 16%, 24%, and 32.21% respectively against the benchmark KSE-100 index's return of 16.01% in FY15.

KSE 100 index's strong performance was led by 1) Automobile and Parts (relative outperformance of 83.69% - largely led by Yen depreciation and increase in volumetric sales), 2) Construction & Materials (relative outperformance of 35% - mainly led by firm sales and robust margins), 3) Chemicals/Fertilizers (relative outperformance of 31% - largely led by stable gas prices, improved gas flows and increase in capacity utilization which kept fertilizer imports on lower side), 4) Electricity (relative outperformance of 27.62% - largely led by lower oil prices, slow down in circular debt pileup and attractive dividend yields in declining interest rate regime), 5) General Industries (relative outperformance of 12% - largely led by a stronger PKR, increase in demand and strengthening margins). On the flip side, the Oil & Gas sector (including OMCs), marred by declining international oil prices and cut in local fuel prices, underperformed the benchmark index by 39% during FY15. Similarly, the Banking sector underperformed the benchmark by ~24% due to expansionary monetary policy (300bps cut in discount rate cut to 7% in FY15) and introduction of Target Rate put the downward pressure on the net interest margins.

On the economic front, while the last few years have been characterized by continued sluggish GDP growth (real), +3.32% Y/Y in the industrial sector led by large scale manufacturing (improved energy supply and increase in automobiles demand) provided impetus to GDP growth in FY15, which clocked in at 4.20% against a GDP growth of 4.03% witnessed in FY14.

Among the key positives in FY15, headline inflation slowed down significantly, averaging 4.53% Y/Y versus 8.62% Y/Y average growth in CPI recorded in FY14. CPI's significant downward trend is due to lower domestic fuel prices, relatively steady rise in electricity rates (due to lower oil prices and stable gas prices) and decline in perishable food prices.

The government's privatization program continued in FY15 with successful secondary market offerings for both ABL and HBL. This should bode positively for the upcoming second market offerings under privatization program of public sector entities, slated to be completed during the PML-N govt. tenure. However, amidst low international oil prices we believe the offering of OGDC may get delayed. Looking at the external profile, current account (CA) has posted a deficit of USD 2.28bn (down 22% Y/Y) and well within target of 0.80% of GDP, balance of payment (BoP) posted deficit of USD 2.3bn during FY15 versus a surplus of USD 3.8bn during the same time last year. The major reason behind trade deficit was decline in textile exports due to declining international & local cotton prices, stable PKR vs USD and deepening of recessionary cycle in Euro Zone. Additionally, Pakistan's FX reserves have also improved by 32% during FY15 to reach ~USD 18.5bn (up from USD 14bn in FY14). In this backdrop, the PKR remained relatively stable during the year (+3.2% vs USD). The CAD target was achieved due to Sukuk issuance (USD 1bn), privatization proceeds (USD 783mn - ABL & HBL) and IMF tranches of (USD 1.5bn in FY15) which also paved the way for other bilateral/multilateral support and decline in Oil Import Bill. The government needs to streamline energy supply and focus on reviving FDI to unlock growth in the economy, in our view.

The fiscal deficit in FY15 reportedly clocked in at 0.8% of GDP compared to a steep deficit of 5.8% of GDP in FY15 due to relatively lower growth recorded in expenditures (9% Y/Y during FY15) compared with revenues which increased by 26% Y/Y FY14. Drilling down, we find that tax revenues and non-tax revenues increased by 16% Y/Y and -4% Y/Y respectively during FY15, current expenditures recorded a contained growth of 8% Y/Y while PSDP recorded a noticeable growth of 26% Y/Y during FY15. Govt. during FY15 raised PKR 950bn versus the target of PKR 970bn, in declining interest rate scenario mostly re-profiling of short and long term debt was witnessed. Moreover, in declining oil prices regime GoP is in ideal position to further raise utility tariffs, it is expected that the quantum of subsidies should further reduce as agreed with IMF, which should bring the overall fiscal deficit to manageable levels particularly if the impetus in the privatization program along with USD inflows is sustained.

The Fund management team has geared its investment strategy towards top tier blue chip liquid stocks. We reiterate our commitment to allocating the bulk of our funds in liquid equity scripts which ensures flexibility in both

accumulating and offloading positions. The focus is to direct investments towards those entities which retain resilient non-cyclical fundamentals, professional management with a proven track record, consistent earnings growth and strong payout potential. We are also mindful of possible political headwinds and consequent volatility in the capital markets of Pakistan. The Fund management team will continue to monitor macro-economic indicators, with particular focus on the currency, general price levels in the country, external account and the BoP profile. The portfolio will also be continuously monitored to ensure that any new potential opportunities will be availed for the benefit of the fund's investors and to that end we aim to retain sufficient cash to take advantage of such opportunities.

FUTURE OUTLOOK

At the close of Fy15, the KSE-100 Index traded around its all time high. Further re-rating of the KSE-100 Index should depend on 1) Weight increase of Pakistan in MSCI FM Index, 2) Improving macros, led by optimism on foreign inflows and successful privatizations, 3) Lower CPI print, 4) Discount rate at 7%-8% levels would increase corporate and personal loan lending and 4) Stability on the law & order front. Factors which can induce volatility include political developments, foreign outflows due to regional markets downfall, currency depreciation and disruption of law & order conditions. Therefore, as comfort builds on Pakistan's macros, local as well as foreign investor attention should continue to focus on corporate fundamentals and market valuations.

In the above backdrop, we would also like to highlight that an investment strategy takes time to manifest before gains become visible, and the mutual fund industry is subject to the volatility inherent in capital markets. We aim to maximize our returns at the minimal possible risk; however, we remain exposed to fundamental unpredictable events.

x) Disclosure on the markets that the Collective investment Scheme has invested in including - review of the market(s) invested in and performance during the period

The KSE-100 performance can be analyzed in two halves; 1HFY15 was volatile due to long march and sit-in by PTI/PAT which began in Aug'14 and ended in Mid Dec'14 (post terrorist attack on army public school). During this period of political uncertainty the market witnessed FIPI outflow of USD ~50mn. In the 2HFY15, after reaching highs of 35055 points, it posted ~6,128 points correction on the back of continued foreign selling followed by massive selling by local institutions in commercial banks on the back of a cut in benchmark discount rate along with introduction of target rate. However, the market gained momentum in 4qFY15 following the inking of ~USD46bn MoUs signed under the frame work of CPEC. In this regard, the benchmark KSE-100 Index closed FY15 at 34,398 points, a gain of 4,746 points or up 16.01% Y/Y. The upward movement was further supported by 1) Improved Law & Order, 2) Political stability as a result of the formation of a Judicial Commission to probe the 2013 election results, 3) Softening of CPI monthly stats 4) Valuations improved as benchmark discount rate was lowered to 7% (300bps cut during FY15), 5) BoP support through IMF program (3-year USD 6.64bn under the EFF) which also paved the way for other bilateral/multilateral support and much needed structural reforms, 6) Sharp uptick in FX reserves which closed the year at USD ~18.5bn up from USD ~14bn as at Jun'14, with contribution from issuance of Sukuk (USD 1bn), privatization proceeds (USD 783mn - ABL & HBL) and disbursement of IMF tranches (USD 1.5bn in FY15). Average daily volumes (ADV) for the KSE All share index in FY15 improved to 219 million shares, a 2% increase from the 214 million shares (ADV) traded in FY14.

Foreign portfolio investment in Pakistan clocked in net inflows of USD 38.54 million in FY15 compared to net inflows of USD 256.17 million in FY14. Cumulative gross trades (buy) by foreigners amounted to USD 2,758 million in FY15, up 30.68% Y/Y compared with gross trades (buy) in FY14. In the last quarter alone (4qFY15), USD 56.57 million (net basis) was deployed into the equity markets of Pakistan, where as a net FIPI outflow of USD 131 million (net basis) was witnessed due to a foreign selling in 3qFY15. Besides the increase in Pakistan's weight within the MSCI FM space, optimistic outlook on the external account was aided by a successful initiation of GoP's privatization drive and the launch of a critical military operation in tribal regions of the country boosting investor confidence further.

The Pakistani equity bourse continued to outperform the main global composites by a wide margin in FY15. In this regard, MSCI world, MSCI Emerging Markets, and MSCI Frontier Markets have underperformed by 16%, 24%, and 32.21% respectively against the benchmark KSE-100 index's return of 16.01% in FY15.

AUDITORS' REVIEW REPORT TO THE CERTIFICATE HOLDERS ON THE STATEMENT OF COMPLIANCE WITH THE BEST PRACTICES OF THE CODE OF CORPORATE GOVERNANCE

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors of PICIC Asset Management Company Limited, the Management Company of **PICIC GROWTH FUND ("the Fund")** for the year ended June 30, 2015 to comply with the requirements of Listing Regulation No. 35 (Chapter XI) of the listing regulations of Karachi, Lahore and Islamabad Stock Exchanges, where the Fund is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Management Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Management Company's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Management Company's personnel and review of various documents prepared by the Management Company to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Management Company's corporate governance procedures and risks.

The Code requires the Management Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Management Company's compliance, in all material respects, with the best practices contained in the Code as applicable to the Fund for the year ended June 30, 2015.

Central Depository Company of Pakistan Limited

INDEPENDENT AUDITOR'S REPORT TO THE CERTIFICATE HOLDERS

We have audited the accompanying financial statements of **PICIC Growth Fund** ("the Fund"), which comprise of the statement of assets and liabilities as at June 30, 2015 and the statement of comprehensive income, distribution statement, cash flow statement, statement of movement in certificate holders' fund and statement of changes in equity for the year ended June 30, 2015 and summary of significant accounting policies and other explanatory notes.

Management Company's responsibility for the financial statements

The Management Company ("PICIC Asset Management Company Limited") of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with the requirements of the Trust Deed, the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and approved accounting standards as applicable in Pakistan. This responsibility includes designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards as applicable in Pakistan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, either due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the state of the Fund's affairs as at June 30, 2015 and of its financial performance, cash flows and transactions for the year ended June 30, 2015 in accordance with the approved accounting standards as applicable in Pakistan.

Emphasis of matter

We draw attention to the contents as detailed in note 1.4 to the financial statements which provide details regarding the status of conversion of the Fund to an Open End Scheme. Our opinion is not qualified in respect of this matter.

Other matters

In our opinion, the financial statements have been prepared in accordance with the relevant provisions of the Trust Deed, NBFC Rules and NBFC Regulations.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2015

1 STATUS AND NATURE OF BUSINESS

- 1.1 PICIC Growth Fund (the Fund) is a closed-end equity scheme established under a Trust Deed executed between PICIC Asset Management Company Limited as the Management Company and Central Depository Company of Pakistan Limited (CDC) as the Trustee. The registered office of the fund is situated at Karachi, Pakistan. The certificates of the Fund are listed on all the Stock Exchanges of Pakistan. The principal business of the Fund is to invest in listed equity securities with an objective to generate capital growth.
- 1.2 The Fund is being managed by PICIC Asset Management Company Limited which is the Management Company and Central Depository Company of Pakistan is the Trustee of the Fund. The registered office of the Management Company is situated at 3rd floor, PNSC Building, M.T. Khan Road, Karachi.
- 1.3 The Management Company is a wholly owned subsidiary of NIB Bank Limited (the Bank). The bank is pursuing a transaction for divestment of its equity stake in the company. Such divestment transaction would be subject to necessary regulatory approval of SECP.
- 1.4 JCR-VIS Credit Rating Company Limited has assessed the Fund's performance ranking at 'MFR 3-Star', 'MFR 3-Star' and 'MFR 2-Star' for the one-year, three-year and five-year periods respectively for the period ended June 30, 2015. Management quality rating of 'AM2-' has been assigned by JCR-VIS Credit Rating Company Limited to PICIC Asset Management Company Limited.
- 1.5 As per regulation 65 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, a closed end fund shall, upon expiry of every 5 years from November 21, 2007, hold, within one month of such period, a meeting of certificate holders to seek the approval of the certificate holders to convert the Fund into an open end scheme or revoke the closed end fund. In case of closed end fund, where their portfolio is frozen as a result of an agreement with Privatization Commission of Pakistan, the meeting is required to be held within three months from the date of removal of freezing of the portfolio or five years from November 21, 2007, whichever is later. As the 'Available for sale' portfolio of PICIC Growth Fund is frozen as a result of an agreement with the Privatization Commission, Government of Pakistan, the Fund is required to hold the aforementioned meeting within three months from the date of removal of freezing of the portfolio as required by above regulation. Therefore, the Fund will continue in its current legal form atleast till the expiration of current agreement with privatization Commission of Pakistan and Government of Pakistan on June 30, 2016. As such, these financial statements have been prepared on a going concern basis.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984, requirements of Trust Deed, requirements of Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

In case, the requirements differ, the provisions and directive of Companies Ordinance, 1984, the requirements of Trust deed, Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003, and Non-Banking Finance Companies and Notified Entities Regulations, 2008 shall prevail.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention, except that investments are stated at fair values.

These financial statements have been prepared by following accrual basis of accounting except for cashflow information.

2.3 Functional and presentation currency

These financial statements are prepared in Pakistani Rupees, which is presentation and functional currency of the Fund.

2.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires the management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by management in the application of approved accounting standards, as applicable in Pakistan, that have significant effect on the financial statements and estimates with a significant risk of material judgment in the next year are as follows:

Classification and valuation of investments

For details please refer note 4.2 and note 6 to these financial statements.

Provision for taxation

For details please refer note 4.7 and note 18 to these financial statements.

Workers' Welfare Fund

3.4 Standards or interpretations not yet effective

The following new standards and interpretations have been issued by the International Accounting Standards Board (IASB), which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

IFRS 1	First Time Adoption of International Financial Reporting Standards
IFRS 9	Financial Instruments
IFRS 14	Regulatory Deferral Accounts
IFRS 15	Revenue from Contracts with Customers

The Fund expects that the adoption of the above amendments and interpretations of the standards will not have any material impact and therefore will not affect the Fund's financial statements in the period of initial application.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied unless otherwise stated.

4.1 Cash and cash equivalents

Cash and cash equivalents include demand deposits with banks and other short term highly liquid investments with original maturities of three months or less and which are subject to insignificant changes in value.

4.2 Financial assets

4.2.1 Classification

The Fund classifies its financial assets in the following categories: 'loans and receivables', 'at fair value through profit or loss' and 'available for sale'. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(a) Loans and receivables

These are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

(b) Financial assets at fair value through profit or loss

Financial assets that are acquired principally for the purpose of generating profit from short-term fluctuations in prices are classified as held for trading in the 'financial assets at fair value through profit or loss' category.

(c) Available for sale

Available for sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as (a) loans and receivables or (b) financial assets at fair value through profit or loss. These investments which are intended to be held for an indefinite period of time and may be sold in response to the needs for liquidity or change in price.

4.2.2 Regular way contracts

Regular purchases and sales of financial assets are recognised on the trade date - the date on which the Fund commits to purchase or sell the asset.

4.2.3 Initial recognition and measurement

Financial assets are initially recognised at fair value plus transaction costs except for financial assets carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the statement of comprehensive income.

4.2.4 Subsequent measurement

Subsequent to initial recognition, financial assets designated by the management as 'at fair value through profit or loss and available for sale' are valued as follows:

Basis of valuation of equity securities

Investments in equity securities are valued on the basis of closing quoted market prices available at the stock exchange.

Net gains and losses arising on changes in the fair value of financial assets carried at fair value through profit or loss are taken to the statement of comprehensive income.

Net gains and losses arising on changes in fair value of available for sale financial assets are taken to statement of comprehensive income under the head 'other comprehensive income' until these are derecognised. At this time, the cumulative gain or loss, previously shown under 'other comprehensive income', is transferred to the profit and loss account as capital gain / (loss).

Subsequent to initial recognition, financial assets classified as 'loans and receivables' are carried at amortised cost using the effective interest method.

Gain or loss is also recognised in the statement of comprehensive income when financial assets carried at amortised cost are derecognised or impaired, and through the amortisation process.

4.2.5 Impairment

The Fund assesses at each reporting date whether there is an objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered, among other indicators, as an indicator that the securities are impaired. If any such evidence exists for available for sale financial assets, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in statement of comprehensive income is reclassified from equity to statement of comprehensive income. Impairment losses recognised on equity instruments are not reversed through the statement of comprehensive income.

For financial assets classified as 'loans and receivables', a provision for impairment is established when there is an objective evidence that the Fund will not be able to collect all amounts due according to the original terms. The amount of the provision is determined based on the provisioning criteria specified by SECP.

4.2.6 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

4.2.7 Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously.

4.3 Derivatives

Derivative instruments are initially recognised at fair value and subsequent to initial measurement, each derivative instrument is re-measured to its fair value and the resultant gain or loss is recognised in the statement of comprehensive income.

4.4 Financial liabilities

All financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instrument. They are initially recognised at fair value and subsequently stated at amortised cost.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired.

4.5 Provisions

Provisions are recognised when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

4.6 Proposed distributions

Distributions declared subsequent to the reporting date are considered as non-adjusting events and are recognised in the financial statements in the year in which distributions are declared.

4.7 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed amongst the certificate holders.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

The Fund has not recognised any amount in respect of deferred tax in these financial statements as the Fund intends to avail the tax exemption in future years by distributing at least ninety percent of its accounting income for the year / period as reduced by capital gains, whether realised or unrealised, to its unit holders every year.

4.8 Net assets value per certificate

The net assets value (NAV) per certificate, as disclosed on the statement of assets and liabilities is calculated by dividing the net assets of the Fund by the number of certificates in issue at the year end.

4.9 Revenue recognition

- Capital gains / losses arising on sale of investments are included in the statement of comprehensive income on the date at which transactions take place.
- Dividend income is recognised in the statement of comprehensive income when the right to receive the dividend is established.
- Unrealised gains / losses arising on re-measurement of investments classified as financial assets 'at fair

value through profit or loss' are included in the statement of comprehensive income in the period in which they arise.

- Profit on bank deposit is recognised on an accrual basis.

6.2.1 The above mentioned shares of Pakistan State Oil Company Limited and Sui Northern Gas Pipelines Limited are blocked / frozen by an order of the Government of Pakistan (GoP) as the same form part of a strategic shareholding under the control of the GoP. As a result, the Fund is restricted from selling, transferring, encumbering or otherwise disposing of or dealing with any interest in the said shares, including any future bonus / right shares in respect thereof. Consequently, the exposure limit mentioned in regulation 55 of the NBFC Regulations, 2008 does not apply to the above frozen shares.

As the matter relating to levy of FED is currently pending in the Court, the Management Company as a matter of prudence and abundant caution, has made full provision in respect of FED (including the resultant impact on its Sindh Sales Tax) effective June 13, 2013, aggregating to Rs. 85.583 million (including Rs. 43.863 million for the year ended June 30, 2014). Had the provision not been made the net asset value of the Fund as at June 30, 2015 would have been higher by Re. 0.30 per certificate (June 30, 2014: Re. 0.15 per certificate)

The Board of Directors of the Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework. The Board is also responsible for developing and monitoring the Fund's risk management policies.

The Fund's risk management policies are established to identify and analyse the risks faced by the Fund, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities.

The Fund's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk.

22.1 Market risk

Market risk is the risk that the fair value or the future cash flows of a financial instrument may fluctuate because of changes in market prices. Market risk comprises of three types of risk: currency risk, interest rate risk and other price risk.

22.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund, at present, is not exposed to currency risk as its operations are geographically restricted to Pakistan and all transactions are carried out in Pak Rupees.

22.1.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As the Fund has no significant interest-bearing assets, the Fund's income and operating cash flows are substantially independent of changes in market interest rates.

22.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Fund is exposed to equity securities price risk because of investments held by the Fund and classified on the Statement of Assets and Liabilities as financial assets 'at fair value through profit or loss' and 'available for sale'. To manage its price risk arising from investments in equity securities, the Fund diversifies its portfolio within the eligible stocks prescribed in the Trust Deed. The Fund's constitutive document / regulations also limit individual equity securities to no more than 10% of net assets, or issued capital of the investee company, whichever is lower, and sector exposure limit to 30% of net assets. However, relaxation in this regard has been obtained from the regulators in respect of frozen investments classified as 'available for sale' as disclosed in note 6.2.

In case of 5% increase / decrease in all shares held by the fund on June 30, 2015, post-tax profit for the period would be affected by Rs. 234.76 million (2014: Rs 322.16 million) as a result of gains / losses on equity securities classified as financial assets 'at fair value through profit or loss'. Other components of equity would increase / decrease by Rs. 318.67 million (2014: Rs. 319.12 million) as a result of gains / losses on equity securities classified as 'available for sale'.

22.2 Credit risk

Credit risk represents the risk of a loss if the counter parties fail to perform as contracted. Credit risk arises from deposits with banks and financial institutions, credit exposure arising as a result of dividends receivable on equity securities, receivable against sale of investments and accrued income on bank deposits. For banks and financial institutions, only reputed parties are accepted. Credit risk on dividend receivable is minimal due to statutory protection. All transactions in listed securities are settled / paid for upon delivery using the National Clearing Company of Pakistan Limited. The risk of default is considered minimal due to inherent systematic measures taken therein. The Fund's policy is to enter into financial contracts in accordance with the internal risk management policies and investment guidelines approved by the Investment Committee. The Fund does not expect to incur material credit losses on its financial assets.

The analysis below summarises the credit quality of the Fund's bank balances as at June 30, 2015.

Name of the bank	Rupees in '000'	As at June 30, 2015		Percentage of total bank balances
		Rating agency	Latest short term rating	
Savings accounts				
NIB Bank Limited	<u>627,797</u>	PACRA	A1+	<u>100.00%</u>

The credit quality of the Fund's bank balances as at June 30, 2014 was as follows:

Name of the bank	Rupees in '000'	As at June 30, 2014		Percentage of total bank balances
		Rating agency	Latest short term rating	
Savings accounts				
NIB Bank Limited	<u>106,613</u>	PACRA	A1+	<u>100.00%</u>

The maximum exposure to credit risk before any credit enhancement as at June 30, 2015 is the carrying amount of the financial assets. Investments in equity securities, however, are not exposed to credit risk.

Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentrations of credit risk.

23.3 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due can only do so on terms that are materially disadvantageous.

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through other facilities. The Fund manages the liquidity risk by maintaining sufficient cash balance with banks and marketable securities.

The Fund has a policy is to invest the majority of its assets in investments that are traded in an active market and can be readily disposed off. The Fund's listed securities are considered readily realisable, as they are listed on the Karachi Stock Exchange.

The Fund is not materially exposed to liquidity risk as all obligations / commitments of the Fund are short-term in nature and are restricted to the extent of available liquidity and significant assets of the Fund are readily disposable in the market.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

23 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are traded on stock exchange are revalued at the market prices prevailing at the close of the trading on the reporting date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from corresponding book values as the items are either short-term in nature or are periodically repriced.

International Financial Reporting Standard (IFRS) 7, "Financial Instruments: Disclosures" requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

Investments of the Fund carried at fair value are categorised as follows:

	As at June 30, 2015			
Assets	Level 1	Level 2	Level 3	Total
	Rupees in ' 000'			
Investment in listed equity securities				
-at fair value through profit or loss	4,695,179	-	-	4,695,179

-at fair value through profit or loss	6,443,244	-	-	6,443,244
-available for sale	4,811,176	-	-	6,382,385

24 CAPITAL MANAGEMENT

The Fund's objectives when managing capital are to safeguard its ability to continue as a going concern so that it can continue to provide returns for certificate holders and to maintain a strong capital base to meet unexpected losses or opportunities.

In order to maintain or adjust the capital structure, the Fund may adjust dividends paid to certificate holders or issue new certificates.
